IN THE BEE TO-DAY

WEATHER.

Department of Agriculture, Toledo, Ohio, April 11, 1892.

The area of low barometer that moved to the St. Lawrence valley last Friday morning remains about stationary, and owing to its influence, fresh to brisk northwesterly winds and generally cloudy weather accompanied by light rain and snow have prevailed over the New England, Middle, and the States bordering on the lakes.

The area of "high" that was central over the Upper Mississippi valley Sunday morning now covers the lakes, causing cool pleasant weather to prevail in the Ohio valley and along the South Atlantic seaboard.

A second "low" now covers the state of Montana, causing much cloudiness and rain or snow in the western states. Rain is falling at Cairo, Memphis and Kansas City, and snow at Omaha and Huron, South Dakota and in the extreme northwest. Freezing temperature occurred over the lakes during the night.

The Mississippi river is falling from Keokuk, Ia., to St. Louis, Mo., and rising from Cairo down. At Cairo it stands 6.0 feet above, at Memphis 1.3 feet below, and at New Orleans 0.4 feet above their respective danger lines.

The weather conditions for Toledo and vicinity are favorable for continued fair weather to-day, and slightly warmer, northeasterly to-night or early to-morrow.

For Tuesday—Increasing cloudiness and light rain during the day.

Ohio—Generally fair; increasing cloudiness and showers Tuesday afternoon and night; variable winds becoming southeasterly; slightly warmer.

Indiana and Illinios—Increasing cloudiness and showers to-night, rain Tuesday; southeasterly winds.

Michigan—Generally fair to-day, followed by increasing cloudiness and showers to-morrow; warmer southeasterly winds.

Wisconsin—Fair to-day; showers to-night; slightly warmer; winds becoming southeast.

All women who are overworked, "rundown," or debilitated, need just one medicine—and that is Dr. Pierce's Favorite Prescription. It's a broad statement, but facts bear it out. These are the facts:

If you're a weak and delicate woman, then the "Favorite Prescription" builds you up; if you suffer from any of the painful disorders and derangements peculiar to your sex, it relieves and cures. It invigorates the system, improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and strength. All the chronic weaknesses, irregularities, and disturbances known as "female complaints" are completely and permanently cured by it.

These are *facts*, and they're strong enough to warrant the makers in *guaranteeing* their remedy. If it fails to benefit or cure, you have your money back. No other medicine for women is sold on such terms. That proves that nothing else *can* be "just as good."

TWO WERE SAVED

An Instructor and Nine Students

Drowned While Returning from Church.

Sad Accident Reported Off Boston.

Pitiful Cries for Relief Unanswered.

One After the Other the Boys Were Obliged to Release Their Hold and Go to Their Cold and Watery Graves.

Boston, April 11.—Last evening an instructor and ten boys connected with the Boston Farm School at Thompson's Island were capsized in a sailboat and the instructor and eight of the boys drowned. The victims were:

A. F. NORDBERG, instructor, aged about 40.
FRANK F. HITCHCOCK, 19.
HOMER F. THATCHER, 17,
GEORGE F. ELLIS, 16.
THOMAS PHILLIPS, 16.
WILLIAM E. CURRAN, 17.
CHARLES H. GRAVES, 17.
HARRY E. LOUD, 16.
ALBERT H. PACKARD, 16.

The rescued persons were O. W. Clements, 17; Charles A. Lamb, 16.

The instructor had been to the city during the day to attend church and the boys, constituting a regular crew of the school, left its island at 6:30 to sail to City Point to convey the instructor to the island.

The trip is considered perfectly safe, having been made for years without accident. The trip was made and soon after 7 p. m., the boat started on the return.

At a point between Spectre island and Thompson's island the boat was struck by a squall and capsized. The 11 occupants were thrown into the ice-cold water, but succeeded in securing positions where they could cling to the overturned craft.

At one time a tug was seen in the distance, and they shouted with all their remaining strength, but could not attract attention.

The night was cold and the shore and wharves were abandoned. When the time for the boat to return to the island had passed, the superintendent of the school, Charles H. Bradley, went to the beach to scan the waters toward City Point to see if the boys were approaching.

There was a fire on a neighboring island and he got in range of the fire light in the hope that it would aid his vision, but he saw nothing.

The survivors say that they saw his form patrolling the beach and felt that rescue would come, but it did not. Finally the chill of the water and the exertion necessary to keep their heads above the surface overcame the unfortunates and one by one they were compelled to release their hold.

The instructor was the first to go. Each offered a prayer or a word of farewell to the others as he gave up his hold on life. Some of them endured the unequal contest for nearly four hours and it was 11 o'clock when the boat with the two survivors still clinging to it, but exhausted, drifted inshore.

They were immediately cared for and are recovering from the exhaustion of their experience.

Supt. Bradley came to the city this morning, notified the police and the officers of the Boston farm school of the disaster and engaged divers to search for the bodies.

This is the only drowning accident that has happened to the school since 1842.

BLAINE AND MULDOON

Is the Latest Combination on the Boards.

The Secretary of State to Undergo a Course in Physical Culture to Knock Out Disease.

New York, April 11.—A Washington special to the Sun says:

Secretary Blaine is said to have entered into an arrangement with Wm. Muldoon, the famous wrestler and trainer of Inglist John L. Sullivan, by which he is to receive instructions in physical culture. This does not mean that Mr. Blaine contemplates entering the presidential prize-ring again, but he has been induced to believe that regular exercise and careful dieting will do him more good than medicine.

While Muldoon was in this city recently a friend of Secretary Blaine brought about an interview between the diplomate and the wrestler. When the proposition was first made to Mr. Blaine he declined to entertain the idea, saying that he would be subjected to no end of ridicule if the fact became generally known that he had called into his service a professional trainer.

His friend reasoned with him that many of the leading men of the world have been subjected to the massage treatment with beneficial results, and a little ridicule is better than continual suffering, and, perhaps, shortening of life.

Finally Mr. Blaine consented to receive a call from Mr. Muldoon, who visited the secretary at his residence. Mr. Blaine was questioned closely by Muldoon as to the character of food he is in the habit of eating and as to the amount of physical exercise he takes daily.

The result was that Muldoon drew up a list of instructions for the secretary to follow strictly, including a regular amount of exercise with health lifts, as much outdoor walking as possible, and plain diet.

The interview is said to have been satisfactory to all concerned, and Mr. Blaine proposed that Muldoon should remain in Washington for a certain period to give personal supervision to his distinguished patient. Muldoon said his professional engagements would not permit him to linger in Washington beyond the close of the week, but he agreed to communicate with the secretary at regular intervals to ascertain what effect his treatment was having.

When the story leaked out here a few days ago a telegram was sent to Muldoon on the subject. He declined to say anything about it beyond the statement that his interview with Mr. Blaine while in Washington was of a strictly confidential nature.

MUCH MARRIED COUPLE.

Peculiar State of Affairs Developed in South Dakota.

Mitchell, S. D., April 11.—Delia Barden, who married Lyman K. Barden at Albany, N. Y., July 14, 1889, is suing here for divorce on the ground of extreme cruelty and a motion made Saturday for temporary alimony disclosed that if all allegations in the case are true, she has two living husbands and Barden has two living wives.

Mrs. Barden married Lewis Osborn in New York in 1877. They lived together six months, when Osborn left her, and she claims has never since been found. She asserts that he is dead. Mr. Barden claims that Osborn is living in New York.

Since this action for divorce was begun, Barden, assuming that his marriage with the plaintiff was void, has married again.

CALL FOR THE MILITIA.

An Oregon Mob is Bent on Lynching a Murderer.

Portland, Ogn., April 11.—Gov. Pennoyer has received a dispatch from the sheriff of Malheur county, in this state, calling upon him to order out a detachment of the state militia to quell a riot at Vale.

Tuesday last the Backer brothers laid in wait for Wm. Humbert, and without warning riddled him with bullets. The murder was the result of a quarrel between the men over the democratic primaries.

The Backers were landed safely in jail, but the citizens of Vale and the surrounding country are gathering in large numbers, and a lynching party is quite probable. Gov. Pennoyer has ordered the militia to assist the sheriff.

UNIVERSITY EXTENSION.

A Seminary to be Established for the Training of Lecturers.

Philadelphia, April 11.—The American Society for the Extension of University Teaching has decided to establish a university extension seminary for the training of university extension lecturers and organizers.

Prof. Edmund J. James, Ph. D., of the Wharton School of Finance and Economy, University of Pennsylvania, has been elected director.

The seminary will offer for the first time in the history of American education the opportunity for college graduates to prepare themselves thoroughly for higher educational work along administrative lines.

It will become the center for post-graduate work in education and put the university extension movement on a permanent basis. President Charles De Garmo, of Swarthmore college; President Isaac Sharpless, of Harvard college; the Hon. Wm. T. Harris, United States commissioner of education, and other distinguished educationalists have been elected to positions in the faculty.

WAS A GRATEFUL WOMAN

Mrs. Garfield Interests Herself in the Fields,

And Secures an Appointment for Cyrus, Jr.

A Touching Appeal from an Ex-President's Widow for the Man Who Had Done Much for Her Family.

Washington, April 11.—Cyrus W. Field, jr., of New York, is to be given a place in the foreign service. It is said that he will succeed Mr. Jarrett, counsel at Birmingham, England, who has resigned.

Mr. Field's efforts to secure employment for himself are rendered necessary, it is said, by the financial reverses which the head of the family has recently suffered.

Secretary Tracy, Col. Elliott F. Shepard and other well-known New Yorkers laid Mr. Field's desire for a position before the president. He promised to consider the matter, but did nothing until Mrs. Garfield, widow of President Garfield, came to Washington, and hearing of Mr. Field's application interested herself in the case.

She went at once to the executive mansion and sought an interview with Mr. Harrison. The latter inquired the reason of her interest. She replied that she owed everything she had to the kindness of Cyrus W. Field, sr.

Then she went on to tell the president that after the death of her husband in the autumn of 1881, Mr. Field inaugurated the movement looking to the creation of a fund for the maintenance of her children and herself.

The president told her that what he had failed to do for Messrs. Tracy, Shepard and others should be done for her.

It is not improbable that Mr. Field's name will be sent to the senate not later than the middle of the week.

A DEMOCRATIC MAYOR

Will Preside Over the Affairs of the City of Dayton

Dayton, April 11.—After a four days' canvass of the election returns, and after listening to arguments, discussion and opinions from lawyers, judges and laymen, the canvassing board announced results and declared the election of Mayor C. G. McMillen, democratic candidate for mayor, by 2 majority, the showing on the face of the returns.

The delay in declaring the result arose over a controversy as to the right of the board to canvass and count the disputed and uncounted tickets returned to the board.

CROOKS CONVICTED.

The Turkish Bond Thieves Sentenced in London.

London, April 11.—The two notorious criminals, Frederick Pemberton Peach and Walter Selwyn, alias "Lord Fairfax," alias "Captain Selwyn," and also known as Archibald Herbert Melville, were to-day sentenced and convicted for their part in the extraordinary robbery of Turkish bonds.

Selwyn, in view of previous convictions, was sentenced to five years' penal servitude and Peach to 14 months at hard labor.

PRINCE MICHAEL.

He Again Finds Himself in the Hands of the Law.

Detroit, April 11.—Prince Michael, of the new and latter house of Israel, and his spiritual wife, Elizabeth Court, were in the police court this morning for examination on the charge of adultery, but the case was adjourned until Monday next.

Owing to some legal technicality as regards the prince's bonds, Judge Chambers has issued a warrant for his re-arrest, and he will be taken into custody again this afternoon.

BURGLARS.

Fostoria, April 11.—(Special)—Burglars entered the drug store of Cunningham & Ghaster, Saturday night, through an alley window, and made away with about $15, which they pried open the money drawer to get.

They also took several boxes of cigars and some other goods. They missed about $25 which was in other departments of the store.

BARKED UP THE WRONG TREE.

Baltimore, April 11.—The report from Detroit, Mich., yesterday that typhus fever, which has developed in that city, was brought from Baltimore by a family named Rarno, which came here on the North German Lloyd steamship Karlsruhe eight days ago, is believed to be untrue.

A STEAMER ON FIRE.

Bedford, Mass., April 9.—The steamer City of Fitchburg, of the Old Colony freight line, which arrived here yesterday from New York, is burning. Several tugs are now throwing streams of water into her, but it is feared she will be seriously damaged.

The fire departments of the city are also at the scene of the burning vessel and are doing good work to subdue the flames.

THE EMPRESS TO JOURNEY.

Berlin, April 11.—The empress started for Bonn to-day. The kaiser accompanied her to the station and bade her an affectionate adieu.

WHERE IT STARTED

The Reason for the Attack on Harrison

That Is Being Made in Washington.

The President Read the Riot Act to Wanamaker

And Warned Him Against Mr. Quay.

The Language of President Harrison Was: "The Less You Have to Do with Quay the Better; He Is Not Fit to Associate With."

New York, April 11.—A special to the Sun from Philadelphia says there will be no reconciliation between Senator Quay and President Harrison, and as a result Mr. Harrison may eventually not be a candidate for renomination.

Mr. Wanamaker and Congressmen Bingham, O'Neill and Reyburn called on the president a few days ago for the purpose of patching up a peace, but the president surprised the delegation by turning to Mr. Wanamaker and saying:

"The less you have to do with Mr. Quay the better it will be for yourself. He is not a fit man to associate with."

Then the president said he was not so certain about accepting the renomination unless he was assured that the party was harmonious and that he preferred to stand aside rather than to place himself in the power of Mr. Quay and some other men who had attempted to dictate terms for renomination.

When this was told the senator he was angered. He immediately began to discuss with his fellow senators the availability of Blaine as a presidential candidate, and the boom in the interest of the secretary of state last week is due to Quay's work.

BARN BURNERS.

They Continue Their Work in Bryan—Personal Mention.

Bryan, O., April 11.—(Special)—Another barn has been burned in Bryan. This time it was one owned by Hon. S. E. Blakeslee, which took fire at 11:30 yesterday forenoon.

Before the department could get water on the fire the barn was burned to the ground, only the frame work remaining standing.

Two persons were seen departing from the barn immediately after the fire started. Loss on barn and contents probably $150.

Thomas Henry, and aged citizen of Bryan, died at his residence Saturday afternoon after a short illness.

L. N. Wallace is in Toledo to-day.

RAIDING FREIGHT CARS

Bold Gang at Work in the Erie Yards.

They Fight for Their Plunder With Revolvers.

Desperate Battle With the Outlaws, and Considerable Shooting Done Before the Capture.

Corning, N. Y., April 11.—The Erie freight yard in this city was terrorized by a gang of the boldest burglars last night with which the police have ever had to deal.

They broke into freight cars and when the employes tried to drive them away they flourished revolvers and put the employes in full retreat.

An officer captured one of the burglars at 9 o'clock. An hour later the gang stoned the brakemen on an outgoing train and broke into cars, stealing a quantity of ladies' shoes.

The police then captured three more of the gang, but only after some shooting, in which one of the robbers was shot.

The others were chased a distance by officers on a locomotive, but they took to the woods and escaped.

The gang were equipped with burglars' tools and were undoubtedly professionals.

MARRIED THE WRONG SISTER.

Smart Trick of a Twin to Gain a Husband.

Snyder, Ks., April 11.—A strange ending to an elopement occurred here to-day and now William Hawkinson is in possession of a bride he did not bargain for. He was greatly in love with Miss Nana Terrill, but her mother forbade the marriage.

An elopement was planned. Nana Terrill has a twin sister in whom she confided, and who was also in love with Hawkinson.

She determined to outwit her sister and possess herself of the man she loved. When the appointed time came she locked Nana in her room and met Hawkinson as appointed. They went to a neighboring town and the ceremony was performed. Hawkinson did not discover the mistake until they went to a hotel, and he at once concluded to make the best of it.

TO MAKE IT SURE.

England Wants a Chance to Try the Demon Deeming.

London, April 11.—The British authorities have applied for a warrant against Deeming, the murderer, so that he may be brought to England and prosecuted for the Rain Hill crimes, in case the prosecution in Australia should result in failure to convict.

The application has been made at Widnes, Lancashire, within the majesterial jurisdiction where the Rain Hill murders were perpetrated.

GREAT PLACE FOR FREAKS.

Upper Sandusky, O., April 11.—Wyandot county's dude-faced calf is followed with another more singular monstrosity—a double-headed lamb. Samuel Aten, of near Nevada, is the owner. It was born this week, and aside from the double feature is like all other lambs. The two heads are perfectly formed and are alike in every respect. Each head had its own neck, and is, apparently independent of the other. The freak is attracting great attention.

THE WORK OF CONGRESS.

Tariff Bills Laid Away and Appropriations Taken Up.

Washington, April 11.—After several weeks devoted more or less steadily to the tariff question, appropriation bills will now have the right of way in the house for some time to come. The appropriation bills are now in an advanced condition for this stage of a long session of congress, and if the program outlined by the party leaders for the next two or three weeks be carried out, the question of an early final adjournment will then rest with the senate.

The house, however, is pursuing a policy of retrenchment in all branches of the government expenditure, so that long and to some extent probably acrimonious conferences between the two branches of congress must follow action by the senate on appropriations before the bills can be enacted into law.

HYDROPHOBIA IN COURT.

A Man Taken With the Disease Tries to Bite the Judge.

Glasgow, Ky., April 11.—Henry Ragland, colored, was placed on trial Saturday for car breaking. He was one of the many colored men induced to go to work on a railroad in the Adirondacks, where he claims a brother was murdered, and he was brutally beaten.

He had scarcely pleaded guilty to the charge when he began to foam and bark. He was seized with spasms, and his yells were horrible. He attempted to bite the judges and others, and caused a panic in the court room. He was not tried and will die soon.

Ragland, it was subsequently learned, was bitten by a rabid dog last August.

WHISTLING FOR COURAGE

Paris Anarchists Are Stricken With Fear.

Ravachol Puts on a Very Brave Front,

And Tries to Convert the Jailers Over to His Way of Thinking—Reorganization of the Police.

Paris, April 11.—Ravachol seems anxious for a trial apparently, on account of the notoriety it will bring him. He is extremely vain and delights in posing as the great anarchist of the age.

He is endeavoring to convert his wardens to anarchy, and he has attempted to make a disciple even of M. Goron, head of the detective department.

When the latter came to question the outlaw, he found that instead of examining Ravachol, he was being examined by him. "Don't you see," remarked the dynamiter, "I am the apostle of the anarchistical idea, which is the idea of the future? Others will take my place hereafter. They will be an army."

The dynamite outrages in Paris have led the prefecture of police to consider projects for a total reorganization of its forces. A request has accordingly been forwarded to Berlin for permission to send a committee of French police officials to study the organization of the Berlin police.

Soon after the suppression of the commune, M. Thiers thought that the Parisian police ought to be so organized that they should be able to suppress revolutionary risings without the assistance of the military.

The Paris police were subsequently reorganized to this extent that the sergent de ville became gardien de la paix; he received a kepi instead of a cocked hat, a long-skirted tunic instead of a swallow-tail coat, a sword bayonet instead of old epee or straight sword, and it was ordered that he should be subjected to periodical drills with a rifle.

These drills have since been dropped as interfering with the men's time. The vital difference between the Parisian and Berlin policeman consists in this—that the Berlin policemen are for the most part retired non-commissioned officers who have served ten or twelve years in the army and have acquired not only habits of discipline and experience in giving orders, but also a spirit of initiative in acting themselves. For the rest, their organization is no more military than that of the London police.

Some of the anarchists still maintain a defiant and threatening attitude. They declare that a few arrests do not matter. The anarchists who remain will carry on their war against capital, and they cynically maintain that when they intend to blow up a house they have not time to benevolently invite people to get out of the way. Another anarchist compares the dynamite explosions to the guillotine during the reign of terror.

In 1793 many so-called innocent persons went to the "knife," but they represented society which the revolutionists sought to punish. The dynamiters of 1892 are prepared to carry out the same traditions regardless of the danger accruing from their acts of revengeful destruction to utterly inoffensive people.

The anarchists who reasoned in this manner further maintained that the more severe the punishment accorded to Ravachol the more effective will be his daring example to his companions. Despite the boasts of some of the militant members of the revolutionist party, however, it is certain that the vigorous measures adopted by the government have stricken fear into the majority of the terrorists.

LOYALISTS IN BELFAST.

They Are Opposed to an Irish Legislature.

They Claim It Would Bring Certain Ruin on the People of Their Island.

Belfast, April 11.—In accordance with the resolutions of the Ulster loyalist convention, held Saturday last, at Belfast, committees are being formed in every parish or other district of Ulster, the members of which are pledged as follows:

1. To unswerving loyalty to the throne.

2. To protest against any measure that would either cut them off or interfere with their inheritance in the imperial legislature.

3. To declare their utter and unchangeable distrust of, and hostility to, an Irish legislative assembly, their determination to take no part in its organization or proceedings, and passively to resist its laws and its taxation as having no binding force on them.

4. To appeal to the Nationalist leaders to desist from pressing a proposal which must inevitably produce disturbance and arrest the progress of the country, and to the English and Scotch electorate to pause before committing the two islands to a struggle certain to be disastrous to the best interests of both.

A BLAZE IN MICHIGAN.

Belding, Mich., April 11.—The Hotel Bricker, five brick stores and a livery barn were destroyed by fire last night. W. F. Bricker is the largest loser. The losses aggregate $28,000, with small insurance. The cause of the fire was a lamp explosion in the hotel kitchen.

HE IS SICK.

St. Petersburg, April 11.—Vischnegradsky, the minister of finance, who was stricken with sudden illness last week, is improving.

RULED OFF THE TRACK

Harrison Has a Clean Run Ahead

For the Nomination at Minneapolis.

Aspiring Presidential Quantities Have Been Fought Off with Promises of Cabinet Positions.

New York, April 11.—A Chicago special says a conference of republican leaders was held at the Grand Pacific hotel yesterday, and all opposition to Harrison's renomination was practically killed, it is said.

Senator Allison represented his boom; Senator Sawyer, of Wisconsin, stood for the president, and Judge Blodgett and Jesse Spaulding represented Senator Cullom.

The situation was canvassed, and it is said that in consideration of a cabinet position, Senator Allison agreed to give the Iowa delegation to the president.

It is further stated that Senator Cullom's recent letter of withdrawal was given under a similar agreement as the one made with Allison.

Alger is now the only western man disputing the nomination with Harrison. And the Michigan man is being beaten in his own state.

SERIOUSLY INJURED.

Sad Accident to a Woman While Feeding a Cow.

New York, April 11.—Mrs. Lizzie Loshen, wife of a well-to-do farmer in Centerville, N. J., went out to give a cow some feed on Friday night.

The cow overturned the tub in which the feed was placed. Mrs. Loshen attempted to right the tub, when the cow suddenly raised its head and Mrs. Loshen was impaled on its horns. She screamed for help, and when rescued it was found that she had been dangerously wounded in the stomach.

ANOTHER DOCTOR BILL.

Griffin Will Empty It Into the Hopper.

The Sterrett Bill, With Some Modifications, to be Again Discussed in Columbus.

Columbus, April 11.—(Special)—Representative Griffin has prepared a medical bill which he will introduce.

It provides a board of seven shall be appointed to regulate and govern the practice of medicine in Ohio.

This board shall consist of seven practicing physicians, three of which shall be advertising specialists. By having specialists on the board, no one shall become a professor in a medical college unless he can pass an examination upon special branches.

This is to put a premium upon a high grade of medical education and oust the noncompetent professors from the colleges.

The other provisions of the bill are in the main similar to the Sterrett measure, and provide that all practitioners must have certificates from this board.

SHORT AND SWEET

Is the Reply of Messrs. Smith and Kinney

To the Challenge of the Natural Gas Trustees—Proposed Plan of Settlement of Mooted Questions Unsatisfactory.

The following is the reply submitted to the proposition of the natural gas trustees, printed in Saturday's issue:

Toledo, O., April 11, 1892.

To John F. Parsons, W. W. Jones, Reynold Voit and J. W. Greene, gas trustees, and Clarence Brown and Thos. H. Tracy, ex-gas trustees.

Gentlemen—Your esteemed favor of the 8th inst., in which you propose to bet us $1,000 that certain offers to prove which we made to the senate of Ohio, while the recently enacted natural gas legislation was pending before that body, can not be sustained by the evidence to which we referred (and naming as referees for the determination of this wager, the judges of the common pleas court of this county), was duly received by the hand of your messenger.

We observe that you do not propose that the burden upon the taxpayers of Toledo shall be relieved or the demands of the contractors or holders of certificates reduced, however unjust or excessive those claims may be found to be.

Such a contest as you propose would necessarily be a mere farce, settling none of the real questions in controversy between us, and unless you are interested in the contracts, or in the certificates, we have no controversy with you.

Very respectfully yours,
BARTON SMITH.
G. W. KINNEY.

SPORTING GOSSIP

Fred Ely States His Case—Work on the Grounds Commenced.

Fred Ely stated to a Bee this morning that the papers were doing him an injustice in stating that he owed Louisville any money and, in proof of his assertion, showed the writer a letter from John Ward in which it was stated that Brooklyn would assume the debt.

This being the case Chapman is making a whole lot of noise about nothing.

Mr. Ely also says that the Oakland, California, club have no hold on him as they never accepted his terms.

When the Toledo club reaches Columbus the papers in the matter will be presented to President Williams and the matter fully adjusted.

Toledo Park.

Work was commenced in earnest this morning on the new ball grounds on Hawley street. The grounds swarm with workmen leveling the turf and staking out fences and buildings. There will have to be some hustling done to get ready for the opening game. The Robisons commenced laying extra track this morning in the vicinity of the grounds, to facilitate the handling of passengers.

Notes.

Manager Tom Nicholson will take command of the team to-morrow.

The Daisy ball club has organized as follows: Newton, pitcher; Orcutt, catcher; Williamson, first base; J. Slegel, second base; B. J. Pike, third base; M. Hichok, short-stop; O. Doner, left field; A. Newton, center field; J. Maher, right field; Newton, manager. The boys are open to play any club of 10-year-old boys.

TO DINE MR. REED.

New York, April 11.—The Lotus club, of which Hon. Whitelaw Reid was president for 14 years, will entertain him at dinner on Saturday evening the 30th instant. It is expected that the celebration will be one of the most interesting in the history of the club.

SOME WAR ECHOES

The Eulogy of His Brother by Senator Sherman

Brings Forth a Reply to Some of the Statements.

Biographer Gorham Writes an Open Letter

On the Surrender of General Johnston.

Why the Terms of Tecumseh Were Not Accepted—An Interesting Document to the Men Who Fought Our Battles.

Washington, April 11.—The Hon. George C. Gorham, as custodian of the private papers of Secretary Stanton, and now engaged on his biography, has written the following open letter to Senator Sherman. It deals with a striking portion of the senator's recent address, and embodies sundry important historical documents not heretofore published:

Hon. John Sherman, United States Senate.

Dear Sir: In your recent address in New York on the character and public services of your illustrious brother, Gen. W. T. Sherman, you made the following reference to the terms proposed by him for the surrender of the forces of Gen. Joseph Johnston and other commanders at the close of the war: "Gen Sherman believed in and sought to carry out the policy of Mr. Lincoln. The terms of surrender were tentative, and the conditions were entirely subject to the supervision of the executive authorities; but instead of being submitted to the generous and forgiving patriot who had fallen they were passed upon in the shadow of a great crime by stern and relentless enemies, who would not have consented to the conditions imposed by Gen. Grant upon Gen. Lee, and who would have disregarded them had not Gen. Grant threatened to resign upon their refusal to carry out his terms. When the arrangement with Gen. Johnston was submitted to President Johnson and Mr. Stanton, it was rejected with the insulting intimation that it proceeded from either cowardice or treachery. The old cry against Gen. Sherman was again started. It was even imputed that he would attempt to play the part of a Cromwell or a military usurper. The generous kindness of Grant came to his relief. New terms were agreed upon and the war closed."

You would have it understood by this that while Gen. Sherman was engaged in a praiseworthy and purely military act, which President Lincoln would have desired him to perform had he lived, he was set upon and insulted, and his arrangements set aside by President Johnson and Edwin M. Stanton, then secretary of war, in a mean and narrow spirit of revenge, because of the assassination of Mr. Lincoln, and that at this juncture the generous kindness of Gen. Grant interposed between him and these alleged enemies and that the two generals agreed on new terms and ended the war.

You state all this as though you had approved Gen. Sherman's course.

Whatever policy Mr. Lincoln might have recommended to congress for the restoration of the confederate states to their relations with the union, none know better than you that he never would have undertaken to usurp the powers of congress on the subject, much less to allow a military subordinate to guide him in the work by an authorized arrangement made under the supervision of Jefferson Davis and his cabinet.

Mr. Lincoln left no room for doubt on this point for he gave the following direction to Gen. Grant a fortnight before the Sherman-Johnson negotiations:

"Lieut. Gen. Grant: The president directs me to say to you that he wishes you to have no conference with Gen. Lee unless it be for the capitulation of Lee's army, or on solely minor or purely military matters.

"He instructs me to say to you that you are not to decide, discuss, or confer on any political question; such questions the president holds in his own hands and will submit them to no military conferences or conventions.

"Meantime you are to press to the utmost your military advantage.

EDWARD M. STANTON,
"Secretary of War."

You will say that Gen. Sherman had not seen this order of Mr. Lincoln's when he made his arrangement with Johnson, but it is none the less absolute proof that he (Mr. Lincoln) would have disapproved the arrangement.

The general needed no such admonition to teach him that the discussion of public policies in a military convention was an invasion of the civil authority and wholly outside the powers and duties of a military commander. He frankly admitted this, and in a letter to Secretary Stanton, dated April 25, the day after receiving the government's disapproval of his terms, he said: "I admit my folly in embracing in a military convention any civic matters."

You represented Gen. Grant as coming to Gen. Sherman's relief, from which those not acquainted with the history of the case would suppose that he approved the agreement. When you made this statement you must have known that Gen. Grant condemned Gen. Sherman's act before consulting either President Johnson or Secretary Stanton. He wrote to Gen. Sherman acknowledging the receipt of the agreement and said: "I read it carefully before submitting it to the president and secretary of war, and felt satisfied that it could not possibly be approved." In the same letter he states that upon his suggestion a cabinet meeting was called, the result of which was "the disapproval by the president of the basis laid down and the disapproval of the negotiations altogether, except for the surrender of the army commanded by Gen. Johnston, and an order for the termination of the armistice for the resumption of hostilities."

I have before me, while I write, the original of the following note from Gen. Grant to Secretary Stanton:

"Headquarters Armies of the United States.
Washington, April 21, 1865.

"Hon. E. M. Stanton, Secretary of War:

"Sir—I have received and just completed reading the dispatches brought by special messenger from Gen. Sherman. They are of such importance that I think immediate action should be taken on them, and it should be done by the president in council with his whole cabinet.

"I would respectfully suggest whether the president should not be notified and all his cabinet, and a meeting take place to-night. Very respectfully,

"Your obedient servant,

"U. S. Grant, Lieutenant General."

Gen. Grant started immediately after the adjournment of the cabinet meeting for Raleigh, N. C., and arrived at Sherman's headquarters on the 24th to execute the president order. Under this order Sherman gave notice that hostilities would be resumed, whereupon Johnston's army was surrendered upon the terms accorded by Grant to Lee.

As a matter of prudence and necessity, Mr. Stanton telegraphed to Gen. John A. Dix, then in New York, with permission to publish the same, a copy of the Sherman-Johnston agreement and its disapproval by the government. To it was appended the reasons for its disapproval. Those reasons were as follows:

"1. It was an exercise of an authority not vested in Gen. Sherman, and on its face shows that both he and Johnston knew that Gen. Sherman had no authority to enter into any such arrangement.

"2. It was a practical acknowledgement of the rebel government.

"3. It undertook to re-establish the rebel state government, that had been overthrown at the sacrifice of many thousand loyal lives and an immense treasury, and placed the arms and munitions of war in the hands of the rebels at their respective capitals, which might be used as soon as the armies of the United States were disbanded, and used to conquer and subdue the loyal states.

"4. By the restoration of rebel authority in their respective states they would be enabled to re-establish slavery.

"5 It might furnish a ground of responsibility for the federal government to pay the rebel debts, and certainly subject the loyal citizens of rebel states to debt contracted by rebels in the state.

"6. It would put in dispute the existence of loyal state governments, and the new state of West Virginia, which had been recognized by every department of the United States government.

"7. It practically abolished the confiscation laws, and relieved the rebels of every degree, who had slaughtered our people, from all pains and penalties for their crimes.

"8. It gave terms that had been deliberately, repeatedly and solemnly rejected by President Lincoln, and better terms than the rebels had ever asked in their most prosperous condition.

"9. It formed no basis of true and lasting peace, but relieved the rebels from the pressure of our victories and left them in condition to renew their efforts to overthrow the United States government and subdue the loyal states whenever their strength was recruited, and any opportunity was offered."

The publication of these reasons was absolutely demanded in the interest of the public safety. The expectations which Gen. Sherman had raised in the minds of the army and the people that our soldiers only awaited the president's order to return rejoicing to their homes could not be realized under his terms consistently with the dignity of the safety of the country. This had to be made evident to the people and the army to prevent serious and perhaps dangerous discontent. The Hon. Jacob Collamer, then a senator from the state of Vermont, in a letter to Mr. Stanton, dated the 14th of June, 1866, expressed his opinion on this point as follows:

"Gen. Sherman promulgated to his army and the world his arrangements with Johnston. Instead, the armistice could not in any other way be accounted for, and the army was gratified with the expectation of an immediate return home. To reject that arrangement was clearly necessary, and to do it without stating any reason for it would have been a very dangerous experiment, both to the public and to the army. Indeed many had serious apprehensions of its effect on the army even with the conclusive reasons which were given. Should not this view be presented in any and every true manifesto of the case?"

It is not necessary here to discuss the terms. No one in his senses will question the good intentions of Gen. Sherman in agreeing to them, but it is the truth of history that they were rejected by the union people of the country at the time as unanimously as they were by the president and the cabinet.

In conclusion allow me to quote one more authority in support of Mr. Stanton's view, and in condemnation of Gen. Sherman's fearful mistake. The authority will not be seriously questioned by you. It reads as follows:

"Cleveland, O., April 27, 1865.

"My Dear Sir: I am distressed beyond measure at the terms granted Johnston by Gen. Sherman. They are inadmissible. There should now be literally no terms granted. We should not only brand the leading rebels with infamy, but the whole rebellion should wear the badge of the penitentiary, so that for this generation, at least, no man who has taken part in it would dare justify or palliate it.

"Yet with these views I feel that gross injustice has been done Gen. Sherman, especially by the press. The most that can be said about him is that he granted the rebels too liberal terms. The same may be said, but in a less degree, of Mr. Lincoln and Gen. Grant in their arrangement with Lee. Gen. Sherman had not understood the political bearing of that agreement. It is his misfortune that he believed the promises of those men and looks upon the whole contest in a simple military view. He thought the disbanding of their armies is the end of the war, while we know that to arm them with the elective franchise and state organizations is to renew the war.

"I feel so troubled at this matter, following so closely upon the death of Mr. Lincoln, that I am inclined to drop everything and go to Raleigh, but I promised to join the funeral cortege here, and on Saturday week have agreed to deliver a eulogy of Mr. Lincoln at Mansfield. This over, I will gladly go to Washington or anywhere else where I can render the least service. I do not wish Gen. Sherman to be unjustly dealt with, and I know that you will not permit it, especially I do not want him to be driven into fellowship with the copperheads. His military services have been too valuable to the country to be stained by any such fellowship. If you can, in your multiplied engagements, drop me a line, pray do so. You can, if you choose, show this to the president, or indeed to any one.

"Very truly yours,
"John Sherman.

"Hon. Edwin M. Stanton."

I cannot find in this letter any reference to the insult with which you now assert that Gen. Sherman's terms were rejected by President Johnson and Mr. Stanton. But I do find in it an assurance from you to Secretary Stanton that you knew he would not permit Gen. Sherman to be unjustly dealt with. You could not have said this had you thought Mr. Stanton himself had already dealt unjustly by him by publishing the reasons above quoted, and which had been in print in every leading newspaper of the country four days before you wrote your letter.

I honored and admired Gen. Sherman. I knew him personally and enjoyed the honor of his friendship. No more patriotic American, no braver or more faithful soldier, ever lived. But I also honored and admired Mr. Stanton, whose biography I have undertaken and whose private papers are in my keeping; and I cannot remain silent when one of the greatest and wisest of his official acts is brought forward, misstated and perverted in a useless effort to show that Gen. Sherman was right when he, himself, admitted (with the concurrence of Senator Sherman) that he was wrong.

Very truly yours,
GEORGE C. GORHAM.

VESSELS FOR SALE.

You Can Buy Them From the Secretary of the Navy.

Washington, D. C, April 11.—Secretary Tracy will in a few days invite bids for the purchase of five vessels which have been stricken from the navy register. The ships offered are the Galena, at the Portsmouth, N. H., navy yard; the Cohasset, at Newport; the Intrepid, at Brooklyn; the Wyoming and the Speedwell, at the Norfolk navy yard.

The vessels are to be sold for cash to the highest bidders. The proposal will be opened at the Navy department on the 2nd of May.

The Galena is appraised at $8,500. She is a wooden vessel, built at the Norfolk navy yard, 1871-78. She is 216 feet long, and of 1900 tons displacement. Her back-action compound engines were built in 1873. Her boilers had been removed before she was wrecked at Gay Head last year.

The Cohasset is valued at $500. She is a wooden steam tug, built in 1861.

The Intrepid is valued at $500. She is an iron vessel, built in 1874 at the Boston navy yard. The engines, machinery and boilers have been mostly removed.

The Wyoming is valued at $10,000. She is a wooden steamer, built at Philadelphia in 1858.

The Speedwell is an iron steam tug, built in Boston in 1865, and is appraised at $2,000, the engineer department being incomplete and imperfect.

None of the vessels are to be sold for less than the appraised values as stated.

A BURGLAR FOR FUN.

A Queer Freak in Chicago, Who Never Steals, but Simply Destroys.

Chicago, April 11.—The latest criminal sensation is a burglar who destroys but does not steal.

The past few days numerous cases have been reported of houses being entered and fine dresses and lace curtains being slashed to pieces with knives; jewelry broken and stamped upon and costly vases smashed in pieces.

From the manner in which the houses are entered it is evident that the despoiler has a full equipment of skeleton keys and burglar's tools.

Nothing is ever missed from the houses into which he effects an entrance, but he never leaves until his mania for destruction has been satisfied.

ALL READY FOR THE RUSH

With a Week to Wait for the Order.

Preparations for the Opening of the Coveted Lands in the Western Country.

Kingfisher, Okla., April 11.—United States Marshal Grimes and special agents of the interior department are in close consultation with Gov. Seay, who arrived here last evening.

The conference is in reference to the formal opening of the county seat town sites in the new county. It is currently reported that the governor, who is to open the town sites by proclamation, will issue a proclamation simultaneously with President Harrison's opening the territory to settlers.

Boomers are entering Oklahoma and Texas from all sides, securing positions of advantage along all the streams near the line of the new territory and preparing to make the run in earnest.

The settlers on this territory will have the advantage of comprehensive official maps and plates to guide them. The cold, heavy wind which prevailed all day have caused considerable suffering among women and children camping in the less protected places along the streams, especially to the men in line before the United States land office, who have absolutely no protection from the cold blasts and blinding sand storms.

WAS OLIVER CURTIS PERRY

Who Stole the Bonds from Mr. Holden.

The Syracuse Train Robber Has Another Crime to Answer for Before the Courts.

Pomo, Cal., April 11.—The mystery of the robbery of George E. Holden, of New York, of $8,000 in a Pullman car last November, has just cleared up.

Holden has identified the securities which prove that the money and bonds were stolen by Oliver Curtis Perry who made the sensational attempt to rob the New York Central train last was not silenced until another song was February.

Curtis was on the train with Holden, but represented himself as a New Mexican cattle rancher. After stealing Holden's valuables he left the train in the night. Pinkerton detectives have found the bonds and jewelry, but Perry spent all the money.

POET WHITMAN'S WILL.

It Gives His Estate to Relatives and Names Literary Executors.

Camden, N. J., April 11.—The will of the late Walt Whitman has been offered for probate in the surrogate's office of Camden county.

After ordering all his just debts and funeral expenses to be paid the testator bequeathes $1,000 to his sister, Mrs. Mary Van Nostrand, of Greenport, N. Y.; $1,000 to his sister, Mrs. Hannah Louisa Hyde, of Burlington, Vt.; $250 to Mrs. George Stafford, of Camden county, and $1,000 to Mary O. Davis, of Camden.

The portraits of his father and mother and a large mahogany table are given to his brother, George W. Whitman. A large armchair, presented to the testator by the children of Thomas Donaldson, he bequeaths to Thomas Donaldson; his gold watch to Harry Stafford, of Marlton, N. J.; his silver watch to his friend Peter Doyle, and an old armchair to J. H. Johnston, a jeweler of New York.

Dr. R. M. Buck, of London, Ontario, and Thomas V. Harned and Horace Traubel, of Camden, are named as literary executors, who shall have absolute charge and possession of all his literary works and use the property as in their judgment they may deem proper, with the restriction that they pay over from time to time to his executrix any profits from the publication of any of his works.

The residue of his estate, including his house at 328 Mickle street, Camden, he bequeaths to his brother, Edward L. Whitman.

He appoints Mrs. Louisa O. Whitman, wife of G. W. Whitman, his executrix.

Alexander H. H. Stuart, who lately died at Staunton, Va., used to tell the following story of how he got rid of an office-seeker soon after assuming the office of secretary of the interior under President Fillmore: "I was very much annoyed by a persistent applicant for the post of messenger. The man came in regularly every day for several weeks, until he became an unbearable bore. Finally, one day after the man had gone out, I asked the messenger then in office if he knew what that man was after. He said: 'No, sir.' 'Well,' said I, 'he wants your place, and if I ever see him again he shall have it.' I never saw the man again."

A. D. STEWART'S PLAN.

He Would Divide Funds for Court House and Parks.

Capt. A. D. Stewart has written Hon. C. P. Griffin the following letter, which explains itself:

Toledo, O., April 8, 1892.

Hon. Chas. P. Griffin, Columbus, O.:

Dear Sir—I write you to suggest the propriety of having a bill passed in legislature allowing the voters of Toledo, O., to again vote on the question of parks for the purpose of rescinding the vote taken last spring, and in lieu of that for the county to vote to appropriate about $300,000 for the purpose of building a new court house which I really think would be of much more benefit both in looks and in a financial point than to spend so much money for parks, or say spend about $200,000 for parks or to enlarge the Court House park.

Now, Mr. Griffin, with my knowledge of the records and papers of Lucas county, Ohio, in the vaults of the old court house, and having been, as you know, in the abstract business in this city for over nine years, I really believe that if the old court house should be burned with the records and papers that would be consumed with it, it would be a damage to this county of from $100,000 to $150,000.

I don't think the general public appreciate that fact as they should, and then, on the other hand, $300,000 spent in a new court house and its furnishing with from $100,000 to $200,000 spent in parks would beautify this city 100 per cent. more than $500,000 spent in parks at this time, besides being of incalculable value to this city and county generally.

I write this because I feel the urgent need of such improvement, and, besides, I don't think the people would, on top of the gas bonds and park bonds, stand the necessary expense of the new court house, and I doubt the propriety of all at this time.

As the gas bond bill has become a law, that now settles that question. I think before any money is spent by the park trustees there should be something done in the direction I suggest above.

The parks would beautify the city and benefit a few financially, but a new court house would not only beautify the city very nearly, if not quite as much, but will benefit every man in this county.

Hoping you may give this your favorable consideration, I remain, very truly yours,
A. D. STEWART.

A Letter from Marion Harland.

February 5, 1892.

CLEVELAND BAKING POWDER COMPANY:

Dear Sirs:—**You are correctly informed,—Cleveland's Baking Powder is in steady use in my kitchen.**

After long and careful trial of others, I prefer Cleveland's Baking Powder for several reasons that seem to me good and sufficient.

Cleveland's is a pure cream of tartar and soda mixture, not containing alum or ammonia or any other substance deleterious to the human stomach. Cakes, muffins, biscuits, &c., in which Cleveland's Baking Powder is used, keep better. They do not crumble into sawdusty consistency or harden into flintiness as they do when raised by other powders that I have tried. A like quantity of Cleveland's Baking Powder goes further and does better work than any other of which I have knowledge. It is therefore cheaper.

I am thus frank in giving the causes of my "change of base" upon an important question because I have been annoyed by comments upon what is surely my affair and that of no other person or parties, and I am not averse to settling this matter, once for all.

On this account you are at liberty to make whatever use you like of this statement.

POMPTON, N. J. Marion Harland

On April 11th, 1873, Captain Jack, during a conference held near Lake Klamath, killed Gen. Canby, Dr. Thomas, who participated in the conference, also being slain.

The sideboard stock has been growing of late till now styles and patterns number more than we ever showed before.

At $25.00, $27.00, $30.00, etc., the line is particularly strong.

There's one design---a perfect dream of style---the wood of which, grained in nature's most artful way, makes a picture that is a poem in wood.

'Twould be gladsome to a lover of fine oak to own such a board.

So much choice wood rarely finds its way into one piece.

Whose shall it be?

The price is $120.

THE PAN-HELLENICS

Have Completed the Arrangements for Their Annual Banquet.

The Toledo Pan-Hellenic Society will enjoy its annual banquet, Tuesday evening, April 26. A meeting to perfect arrangements was held at the office of C. A. Thatcher yesterday afternoon. The banquet will be held at the Toledo Club. Among the speakers of the evening will be Prof. Young, of New York, Lieut. Judson, U. S. A., Prof. C. G. Ballou, of this city, and Hon. Frank Hurd.

PRIMITIVE MAN

And His World of Wonderful Transformations.

The first lecture by Prof. Wright in the third series of the University Extension course called a fine audience to High School hall Saturday night. Naturally it began as far back in the world's history as the researches of science have been able to penetrate and presented well-authenticated conclusions. The different geological periods of the earth, the evolutions and catastrophes that have brought it into its present diversified and habitable state, were briefly reviewed. Among the many definitions of man he chose "Man, the tool-using animal," as distinctly expressive. Geological and astronomical calculations have shortened and otherwise interfered with Darwin's doctrine of gradual evolution. His millions upon millions of years for the slow development of the earth are not consistent with later and more convincing discoveries.

The professor found his most interesting geological study for proofs of upheavals and transformations of nature in the southwest rocky region of our own country—the new world, yet the old. He is an evolutionist, but not of the type that believes in the spontaneous generation of life, and like all great students of this great subject, he approaches it with a sense of the limitations of mind and evidence, and does not assume that the mysterious problem has been, or may be, fully solved. He gives his hearers the benefit of his close, personal investigation of the matter in most pleasing and entertaining manner.

Prof. Wright has fine scholarly presence and being enthusiastically interested in his subject, holds the attention of his listeners, to what is usually termed by the casual reader and student, "dry stuff," but which is in reality, once entered upon, the most fascinating study in the world.

The second lecture of the course occurs this (Monday) evening, it being necessary to have two a week to avoid taking them into the summer weather. Toledoans should show appreciation of this fine opportunity afforded them, on so reasonable terms.

THE MOTHER OF THE BOY

Says that Young Kimmal Does Not Bear a Bad Reputation.

A communication has been received by the Bee, signed the "Mother of the Boy," in which it is stated that Charles Kimmal, who it is reported outraged a young girl at Maumee Friday, did not lie in wait for the girl; that he hasn't a bad reputation, and that he is only 15 years of age. The facts will probably all be brought out on the trial.

BISHOP LEONARD

Had a Busy Day Among the Episcopal Churches.

Yesterday was an active day with the Episcopal churches. In the morning at 11 o'clock Bishop Leonard preached a sermon and confirmed a large class of communicants at Trinity church, and in the evening a like service occurred at Grace church on Stickney avenue. The services were very impressive. Both churches were tastefully decorated with flowers and plants. Collections for diocesan missions were then taken up. Bishop Leonard will officiate this evening at St. Paul's church, East Toledo.

St. Mark's church was filled yesterday afternoon by an attentive congregation. There were seven persons confirmed. The bishop's remarks to the class (after the Apostolic rite) were earnest and full of power, followed by an eloquent sermon, appropriate to Palm Sunday and the occasion, wherein he appealed to the people to follow Christ and be with Him on entering the new Jerusalem.

ANOTHER FRAUD.

A Fellow Who Wants to Make a Present of a Hat and Pair of Slippers.

A slick gent is doing the pan-handling act among citizens at the present time. His scheme is to stop people on the streets, tell them he is in the employ of the government in the Indian territory, and having a large supply of straw hats and beaded slippers is anxious to make a present to the individual attacked, but the goods are at the depot, and he would just like about a dollar to release them, when the gift will be forthcoming. Of course, the scheme is fraudulent, and mention is made of the fellow to put people on their guard.

PREACHER PRIDDY

Reads a Paper on "The Preaching of the Times" Before the Pastors' Union.

The Pastors' union met at the First Congregational church this morning. The paper was given by Rev. G. H. Priddy, on "The Preaching of the Times," which was followed by a discussion, participated in by Revs. Johnson, Hutsinpiller, Sloane, Ormond, Sheridan, Anderson, Buckingham, Conger and Fisk.

The secretary read a resolution which had been prepared by the W. C. T. U. in regard to making a protest against the publication of pugilistic contests, and which had been sent to the Pastors' union for information.

A committee of three was appointed to call on the police commissioners in regard to Sunday trading.

The meeting was then adjourned until April 25 at 10 o'clock. Rev. B. K. Ormond will give the paper on "The Kind of Ministers."

AT TRINITY THIS WEEK.

The Various Services—Flowers and Plants for Saturday.

Services and appointments at Trinity church this (Holy) week will be:

Monday—10 a. m., holy communion; 10:30, Clericus; 12:05, noon-day service; 2 p. m., Daughters of Trinity; 2 p. m., Relief society; 4:30 p. m., evening service.

Tuesday—10 a. m., holy communion; 12:05, mid-day service; 4:30 evening prayer; 7:30, Girls' Friendly society; 8, calisthenic class.

Wednesday—10 a. m., holy communion; 12:05, mid-day service; 7:30, evening prayer; 8, Brotherhood of St. Andrew; 8, Knights of Temperance.

Thursday—10 a. m., holy communion; 12:05, mid-day service; 4:30 p. m., evening prayer.

Good Friday—11 a. m., morning prayer and sermon; 7:30, devotional meditation on "The Seven Last Words from the Cross."

Saturday—Easter eve—4 p. m., infant and adult baptism.

Flowers and plants for decorating at Easter should be sent to the church early on Saturday. Plants loaned and bearing the name and address of owner will be duly returned. All that are not thus marked will be used by the Trinity Flower Mission and sent to the hospitals and those who are sick in the parish.

A PLEASING PROGRAM

Well Rendered at Weber Hall on Saturday Evening.

The concert room in Weber hall was packed to the doors on Saturday evening, and everyone present enjoyed the recitations by the East Side's rising young elocutionist, Miss Maggie Wise, and the musical numbers which varied the program. A piano duet was well rendered by Mrs. G. M. Parks and Miss Harpster, and the piano solo which Mrs. Parks executed later in the evening called out an encore which was graciously responded to. She showed remarkable ability at the piano. Her execution was brilliant, her touch sympathetic and her numbers were most artistic from a musical point of view. The vocal duet by Mr. and Mrs. W. H. Tucker also called out applause, which was not silenced until another song was given. The quartette and chorus singing was good. Miss Wise's recitations were perhaps too many for all of them to be effectively given. It was her concert, and the burden of the entertainment fell upon her. She has a very graceful presence on the stage, and the modulations of voice shown in the recitation of "Child Lost" give assurance of great things in the future for her. The wider knowledge of human emotions which the years will bring, and patient, painstaking study of her chosen profession, if the young lady has the courage to give it, will place Miss Wise in the front rank of histrionic artists. Even now she is far removed from the amateur ranks.

CLUBS AND SOCIETIES.

Rev. Anna Shaw's Lecture on Thursday Evening Next.

Among the good things furnished for this week's pleasure under the auspices of clubs and societies may be announced:

Tuesday—Meeting of Woodbridge W. C. T. U., at 2:30 p. m., with Mrs. F. H. Tanner, 1453 Huron street. Monthly meeting of the Humane society, in the rooms of the society, Adams street, near Summit. Fortnightly meeting of the New Century club, with Mrs. A. M. C. Barnes, 2013 Jefferson street; paper by Mr. J. G. Gould.

Wednesday—At 8 p. m., annual meeting of the Toledo Society of Economic Inquiry. Election of officers. Paper by Mr. A. E. Macomber on "The Growth of Corporations," and discussion on the same open to all. Meeting of the Ladies' union of the Church of Our Father, with Mrs. S. H. Morgan, Washington street. Lecture for congregation and friends of the East Side Congregational church in the basement of the church by Rev. D. M. Fisk.

Thursday—Under the auspices of the Political Equality club, Rev. Anna H. Shaw will lecture in the evening, in Memorial hall annex, on "The Fate of Republics." No man or woman alive to the affairs of to-day should miss it. Free to all.

On Saturday afternoon, at 4 p. m., the Political Equality club will meet with Mrs. G. W. Beeley, 425 Tenth street. President Murphy will announce the delegates to the state suffrage convention, and much other important business will be transacted.

BIG CASH DEAL.

Albert Neukom Acquires the Stoneyard Property on Broadway.

Albert Neukom has purchased from the Hall estate lots 79, 80 and 81, in Oliver's division, the property now occupied by Mr. Neukom for his stoneyard. The consideration was $9,000 cash, the deal being made late Saturday afternoon. Mr. Neukom will at once proceed to improve the property by the placing of machinery and otherwise putting it in shape for one of the most extensive stoneyards in the west. Mr. Neukom is a thriving and energetic business man, and it would be beneficial to Toledo if there were more of such pushers in the community. Success usually crowns his efforts.

GUARD KEARNEY

Was Appointed Against the Wishes of Griffin and Heller.

Mr. William C. Kearney, the newly-appointed guard at the penitentiary from Lucas county, secured the position through the indorsement of the county central committee and county executive committee and Representative Flickinger. Mr. Griffin and Mr. Heller had indorsed and were working for others.

Mr. Kearney is an Irish republican, a brushmaker by trade, and hails from the Fifth ward. He resides on Jervis street, and is a son-in-law of Engineer Richardson, who about a year ago was stricken with paralysis and recently died.

THEY PLEAD.

The Prisoners Indicted by the Grand Jury—All Not Guilty.

The prisoners indicted during the last session of the grand jury were arraigned before Judge Pugsley in common pleas court this morning.

Harry Hoffer pleaded not guilty to the charge of obtaining goods under false pretenses. The indictment alleges that Hoffer bought a bill of groceries of Bailley, the wholesale dealer, pretending that he owned a large stock of groceries at Prospect, Marion county, and that he had $2,500 in cash. The goods were shipped, and the indictment states that Hoffer does not own a grocery or money at Prospect or any other place, and that he is utterly insolvent.

Charles McCoy, indicted on the charge of shooting at Edward Kimes with intent to kill, pleaded not guilty.

John Delaney, larceny from the person, plea of not guilty.

Royal Jenkins, larceny, pleaded not guilty.

Walter Williams, criminal assault upon Kate Flammend, December 10, 1891, not guilty.

The case of Royal Jenkins will be taken up for hearing to-morrow morning in Judge Pugsley's court room.

The indictment against Michael Genslein, arrested for killing a man on Monroe street recently, has been nollied.

ANOTHER EPWORTH LEAGUE

Organized at West Toledo—Much Enthusiasm—The Officers Elected.

With the assistance of A. A. Barber, of St. Paul's chapter, J. L. Stark, of Clark Street chapter and A. B. Hood, of St. John's, an Epworth league was organized at the M. E. church at West Toledo last night. The following officers were elected:

President—A. B. Wagner.
Secretary—Miss Myrtle Berg.
Treasurer—Miss Lillian Reynolds.
First Vice President—Frank Scharer.
Second Vice President—Miss Sadie Kerr.
Third Vice President—Mrs. Julia Christleib.
Fourth Vice President—Miss Rose Scharer.

The field seemed just ripe for organizing the young people at this time, and much enthusiasm was manifested. Rev. Brackney may well rejoice to see the young people of his church enter so heartily into the work. There is no doubt that this marshaling of forces will be a great help to the pastor and will accomplish much good among the young people of that community. Any church could well be proud of so noble a class of young workers as those who last evening became charter members of this new chapter.

THE C., H. & D. DIRECTORS

Will Meet at Cincinnati on May 9—Business to Come Up.

A meeting of the directors of the Cincinnati, Hamilton & Dayton Railroad company has been announced to occur May 9, at the general office of the road at Cincinnati.

This is to be a very important meeting, and business pertaining to the future prospects of the road will be considered.

The directors will vote to increase the capital stock by the addition of 40,000 shares, denomination of $100 each.

The extra stock is issued for the purpose of building a second additional track, extending the line by constructing branches, purchasing new machinery and rolling stock, and to pay off unfunded indebtedness.

At this meeting the issue of $3,000,000 par value, 5 per cent. general mortgage gold bonds, will be authorized, to mature June 1, 1942, and a mortgage on all the personal and real property of the company will be executed.

THE COUNCIL BOARDS

Will Meet to Organize—Gossip as to the Result.

The new board of councilmen will meet this evening for organization. As this board is a tie politically it is likely that there will be a lively fight before a president is elected. From present indications the republicans will probably hold out as long as possible in order to get some concessions in the appointment of city officials, which will be elected by the joint boards, which have a democratic majority.

For the presidency of the council board there are several candidates, but Mr. Coleman seems to be leading among the democrats and Mr. Lee among the republicans. The respective sides will caucus some time to-day before the meeting and decide on the candidate they will support. Other candidates are Messrs. Rutherford, Tanner and Neuendorf.

The aldermanic board will meet to-morrow evening for organization, and a joint session will probably be held Wednesday or Thursday.

There are many rumors afloat that some of the present republican officials expect to be reappointed and different ones claim to have champions on the democratic side, but nothing definite has developed thus far.

THE SCHOOL QUESTION.

The Pope, is Interesting Himself in This Country.

Rome, April 11.—The Pope has written a letter to Archbishop Ireland, disproving of certain criticisms in the Jusuit organ, Civilta Catholica, on the archbishop's course.

The Pope is giving much study to the school question in the United States and has received from Cardinal Gibbons, of Baltimore, an interesting sketch on the subject.

"WE ARE HERE TO STAY"

Is the Banner Painters' Union No. 7 Hangs Out.

At the entrance to Clarke's Hall this morning is displayed a decorated sign reading: "Union No. 7—We are here to Stay." Inside the hall some two hundred members of the union answered roll call, and several more applications for membership were received.

It is reported a few non-union painters have been put to work in small shops, which employ one or two men only. Work is at a standstill yet in the large establishments.

One man from Fostoria went to work this morning for Allen & Parkhurst, but on learning the reason for his employment he quit work and repaired to the union headquarters.

The following official communication is made by the union:

Clarke Hall, April 11, 1892.

There has been a report circulated that the Journeymen Painters of Toledo were responsible for the prolonged inconvenience many citizens have been subjected to. We wish to say that such is not the case. The Master Painters have made no effort whatever to settle the trouble with us, and it lies with a few of them whether you will be promptly relieved or not. We would further say that if your work must be done immediately you can have it done by applying to us for a list of shops which have signed the scale, as we are prepared to furnish those shops with any number of the best workmen they may require. UNION NO. 9.

This morning a delegation of the strikers endeavored to induce three painters working for G. W. Wells, on Division street, to quit, but they continued work. At the request of Mr. Wells a detail of police was sent to the scene, but no trouble followed. The strikers used persuasion and not force. Mr. Wells' men worked all day.

Who Is the Most Popular Lady in the Land?

We are not prepared to state who is the most popular lady in the land, but to sum up the varied expressions of admiration of the hundreds who visited OUR SPRING OPENING, Wednesday, we would say that the most popular MISS is—

MIS-FIT.

"Candidly now," as one gentleman remarked to his companion, "did you ever see such a variety and blending of colors?" "I am a tailor myself and can truthfully say, that I never saw such workmanship."

Another remarked:

"I bought one of their CUSTOM MADE SUITS last week and paid less than they asked me at a ready-made clothing store for a hand-me-down suit."

After this strain were the remarks of many. Those who have seen our display will ask our prices, at least, before buying. To those who have not visited our establishment we would say—Gentlemen! Consult your pocket-book. Why should you pay a custom tailor $30, $40 or $50 for a suit (?) when we can fit you with the same grade of

HER ONLY SIN!

A lady confessed to us the other dayas follows: "I promised the other house faithfully I would return and buy from them, but after seeing this grand line of fresh, natty patterns of "Kidderminster" Brussels, so cheap, and just as you advertise them, I cannot keep my promise. This is my only sin, but I feel justified in sinning thus. I want these goods. My friends shall buy their Carpets also of

Senator Roger Q. Mills will have a word to say when the free wool bill comes up before the senate. The right man in the right place.

"Free woolens will follow free wool," means a protection organ. Well, will people object to buying clothing and blankets without paying double price for them in the shape of an unnecessary tax?

A Washington dispatch says "Mr. Blaine will write no more letters, but he is better, and if," etc. What an aching void there will be in national politics hereafter if the Secretary shall adhere to his purpose. The "and if" is respectfully referred to Mr. Harrison.

Minister Reid says he comes back to resume work on the Tribune. There is a large vacancy there yawning for such work as he is able to do, but how will he reconcile his expanded ideas with the narrow partisan path he is expected to walk in?

France still leads as the nation of polite phrases and graceful deeds. By a vote of 358 to three the chamber of deputies grants 3,250,000 francs for the French exhibit at the World's fair, and the official report says:

"France desires to give the American people a new proof of her sympathy and of her wish to bind closer the ties which already unite the French and American republics."

The sympathies of the world go out to two old men whom death already overshadows, and upon whom rests also the shadow of disgrace. These are Cyrus W. Fields, suffering for the dishonorable deeds of a son, and Count De Lesseps, whom it is charitable and not unreasonable to believe is quite as innocent of knowledge of the financial transactions for which, after ten years, he is being prosecuted. De Lesseps was both genius and visionary. He was never a man of business.

In Columbus it is understood that Hon. Charles P. Griffin is to be the republican candidate for congress in this district. The thing seems to be fixed, no matter what Capt. Kent Hamilton's friends may say, or what Gov. James Ashley may think. Mr. Griffin is major general of the hoss marines and is the boss of the bosses. He has the nomination fixed, but the election is quite another thing, even if the district be nominally republican.

We are told that the government laboratory in Montpelier has received 800 samples of sugar from licensed producers. Consider the fact—governments agents sorting out products upon which tribute is to be paid: the farmers of the country who happen not to have "sugar bushes" on their land to pay bounty to these farmers of Vermont for their product. The thing is as absurd as it is unjust and un-American. The patience of the people in submitting to such maneuvering is something sublime.

The opening of the great bridge across the Mississippi at Memphis will be one of the most notable events of the year in this country. The selection of the orator for the occasion is a happy one. Senator Vorhees will be sure to find the right thing to say, and will say it gracefully. Among the interesting facts recalled in connection with the coming event is that at the point where the bridge has been constructed De Soto stood and gazed on the Father of Waters 350 years ago, and that nearly fifty years ago John C. Calhoun, speaking in Memphis, predicted that a great transcontinental line of transportation would one day cross the river at this point.

The free silver bill is dead, but not because the majority of people do not favor bi-metalism. This administration has now an opportunity to forward commercial and industrial interests, always adversely affected by money stringency, by issuing a call for an international monetary conference. Such a conference could and probably would fix an international standard value for silver. It is generally believed that England is ready for it, and that at this time, when British textile manufacturers are suffering loss on their India trade, because of a fall in silver, the English government will not dare refuse to confer, even if so inclined.

The democratic house of representatives got down to business in good shape last week. Wool was placed on the free list, and cotton ties and cotton bagging will follow. There is yet time, even if an early adjournment is taken, for many steps to be taken toward tariff reform. The enemies of the democracy have hoped to see this session ended with no practical measures taken for the relief of the people from burdensome and unnecessary taxes. Their prophecies should be brought to naught. The campaigns of 1888 and 1890 returned the house majority that reform in tariff might be inaugurated. The further this majority goes on this line, the better.

When the New Orleans fire burned up $3,000,000 worth of cotton in store, the Chicago Tribune offered the consolation that the loss would benefit planters by advancing prices. The Nonconformist, organ of the alliance movement, retorts:

It won't do any such thing. The insurance companies will pay for the cotton and recover the cost from the people. If overproduction has been the matter this only takes off the surplus and the balance will be enough, and enough never puts up the price. But the cotton is not now in the hands of the people. How, then, could an advance help them? Talk of overproduction of cotton when the whole products of the world does not give three yards per annum to each consumer.

Slowly but surely the people recognize the fallacies of the false system of political economy that has brought us into our present industrial entanglement, the system on which alone rests the hope of perpetuating high tariff robbery. "Overproduction" and the home market are too closely connected. The most superficial observers here can reason from cause to effect.

AN EVIL SYSTEM.

If national legislation can and will put an end to the sweating system it would seem as though the congressional committee that has been investigating in Chicago the past week had accumulated sufficient evidence on which to return and report "the sweating system must go." It appears from the testimony taken that the yearly manufacture of clothing in Chicago amounts to $20,000,000, and that not more than five per cent. of the work is done in manufacturers' shops.

The rule is for manufacturers to buy cloth, have it cut and trimmed in their own shops, and then give out the work to contractors. From the contractors the work is let out, and sub-let, and often again sub-let. It goes into tenements, the vilest and most unwholesome. It is done by men, women and children who herd together in all sorts of quarters.

The Illinois state law requires 500 feet of air to each person employed in a factory. The committee found in one sweaters' den, a room twelve by sixteen feet, thirty-nine persons at work. The room had also sewing machines and a stove for cooking in it. Had the committee pushed the question, they would probably have found some of the thirty-nine sleep as well as eat in the room, making beds of the work-benches, and coverlets of the clothing.

Taxation on imported woolen goods was put on to keep up the wages of labor in this country, as all the protectionists and those who read (and believe) their organs know. The committee found the victims of the sweaters were "mostly Italians, Poles, Bohemians and Russian Jews." Those who have watched the efforts of organized labor to help workers at the clothing trade in Chicago know that these efforts have failed because these classes of laborers have taken this work to their dens, and run their machines and plied their needles fourteen and sixteen hours a day, seven days in the week.

And the wages? In a number of shops the workmen all testified that their wages had been cut down fifty per cent. in the last two years. Some men by unremitting labor earn $10 a week, but oftener it is $6. Women's toil brings them from $6 to $2. The children receive from $2 to $1.

This is what the congressional committee has to report, as the results of the sweating system in the World's fair city. What will result from the report? Once before a labor committee sat in Chicago and in other principal cities of the country, and before it in Washington the most intelligent representatives of labor appeared to be questioned. The result was the printing and free distribution of the report of the committee, in a volume of over one thousand pages. And there was no other result.

It may be seriously questioned, and the question is a proper one, whether congress can legitimately take any action against this system. It is not on account of the evil effect of the system on the working classes that congress is asked to interfere. This evil is apparent, deadly, revolting, but it does not offer grounds on which the nation can legislate. The contention is that clothing made in such surroundings and under such conditions is likely to be impregnated with and to disseminate disease, and that therefore its sale as an article of interstate commerce can be interdicted. It was upon this plea the bill to abolish the sweating system was introduced in congress, from Massachusetts. Boston desires to keep out of competition with her clothing manufacturers and dealers the tenement-made goods of New York. In this originated the bill.

No one will deny that contagion may cling to tenement-made goods, but it is quite as likely no conclusive evidence can be offered that disease and death has ever come of selling and buying them. It does not seem, from anything known before, or revealed by this investigation, that congress has any legitimate business with this question; that anything can be done by law to overthrow this system. The investigation has turned the light upon one of the festering evils of to-day. But with all the horrors revealed by that light moving the hearts of men to pity and protest, who can see a remedy?

THE NINETY-NINE YEAR LAW.

The legislature has just enacted into law a measure which gives municipalities authority to grant street railway franchises for ninety-nine years, an increase of seventy-four years over privileges heretofore bestowed.

The sugar-coating of this law is the provision that railway companies must remunerate the municipalities for the franchises. In theory this provision is good; in practice it will almost be a nullity. The corporations will work the councils in the majority of cases and the next thing to ownership in perpetuity will be given the street railway owners for a pittance. One hundred years' franchise in any American city to a corporation which does business wholly within city limits, and which cannot, like a steam railway connecting great commercial cities, bring value and trade, is too long for the present generation to negotiate. Values may change, wonderfully change, within half that period.

But the proposition now being a law, it is pertinent to ask what is a franchise for street railway purposes? Here in Toledo precedent is making which may make the subject conflicting and perplexing everywhere in Ohio. One company which has long enjoyed municipal privileges, called a franchise, hardly knows whether it is "afoot or horseback," and is constantly obliged to fight for its supposed rights at home and in the legislature. A bill now pending before the general assembly will, if passed, virtually confiscate four miles of its trackage in Toledo. So, it is fair to inquire, what is a franchise, which municipalities may now grant, for a period of ninety-nine years? Ohio law is fast getting into such a snarl that even a "Philadelphia lawyer" can not tell what it means, if it really means anything. Perhaps anything or nothing, as the courts may construe it.

JUDGE KING WINS.

Youngstown, O., April 11.—The Republican congressional primaries were the most hotly contested ever held in this city, and the result showed that Judge Johnson was not in it. Judge King, chairman of the Republican State Central committee, carried every ward in the city by large majorities, and all the precincts in the country, so far as heard from.

GUATEMALA ELECTION.

Washington, April 11.—The final official canvass of the presidential vote in Guatemala resulted as follows: Gen. Reina Barrois, 57,826 votes; Dr. Lainfiesta, 28,500; Dr. Montular, 11,428; Dr. Llerena, 7,594; Gen. Mendizabal, 4,823. Gen. Barrios, having received a majority, has been officially informed that he is declared president-elect.

GAMBLERS DRIVEN OUT.

Kingfisher, O. T., April 11.—The warnings given the sporting gentry of this city have been supplemented by the action of the county commissioners who have ordered the saloons to close out the gambling dens run in the same buildings with the saloons under penalty of losing their licenses. The result is that many of the sports have left town and the dens are closed.

IN OUR EXCHANGES.

The democrats of Toledo have secured control of the council and will distribute all the fat appointive offices among the faithful.—Maumee New Era.

President Squire, in his talk to the republican executive committee meeting, took occasion to pay Senator Calvin S. Brice a compliment. He said that over one year ago the senator, in an open letter, urged the formation of democratic clubs in every county in the state. The speaker said this was proper, and he knew that along side of each would spring up a republican club and that reading and discussions of the political situation would naturally follow. That was what republicans wanted, and the people were benefited thereby. Good laws were beneficial to both republicans and democrats, and it was important that they should be honestly and economically enforced. As clubs, it made no difference who filled certain positions, so long as we had good laws. His remarks were listened to with great attention.—Columbus Dispatch.

At the republican district committee meeting at Toledo, it was decided, that instead of selecting those officers at the state convention, a special convention shall be held in Toledo on the 25th inst., to select two delegates and two alternates to the national convention at Minneapolis; one presidential elector, and a member to the congressional committee for the district. Just why the change was made from the old style, we do not know, but do not see any particular objection to it other than the making of another convention necessary. In the committee meeting Judge Nearing, of this county, was the only one favoring the attending to these duties at the state convention as heretofore. At the Toledo convention on the 25th, each county will be entitled to the following representation: Fulton 11, Lucas 39, Ottawa 6, Wood 21. The delegates from Wood will have to be selected at the convention on the 21st. As will be seen by the figures, Lucas has it in her power to keep all the soft places or give them out, just at her own sweet will.—Bowling Green Sentinel.

HOLY WEEK.

Services of an Impressive Character To Be Held Every Day.

Yesterday—Palm Sunday—was the beginning of what is known in the Catholic church as Holy Week. The palms were distributed yesterday at the morning services in the various Catholic churches of the city.

The imposing ritual of the church will be carried out this week in the local churches with much fullness and display.

On Holy Thursday there will be the usual solemn high mass with the office of Tenebrae and attendant services in the evening. The office of Tenebrae will be chanted in almost all the churches on Wednesday, Thursday and Friday evenings. The office to be sung on each evening will consist of the matins and lauds of the following day, including First, Second and Third Nocturns, each Nocturn consisting of three psalms and three lamentations. Following the lauds the "Our Father" is said in silence; then in an audible tone of voice the psalm Miserere. After the prayer, a noise is made and the lighted candle which was previously placed behind the altar is brought forth, and all rise and depart in solemn silence.

On Good Friday and Holy Saturday there will be the customary lengthy and impressive ceremonies.

HERMAN BAUMBACH

Gives a Columbus Paper Several Tips on Infirmary Matters.

Mr. Herman Baumbach, while in Columbus last week, gave the Press the information contained in the following:

Mr. Herman Baumbach, city infirmary director for the city of Toledo, is in Columbus in the interest of having a bill passed by the legislature taking the control of his office out of the hands of the common council and vesting it in the mayor.

Director Baumbach was met by a Press reporter at the office of City Infirmary Doctor Stein, and talked entertainingly about the system of extending temporary relief to the needy of Toledo. Their method of doling out alms seems to be superior to the system in vogue in Columbus. In Toledo, instead of giving orders upon groceries, a stock of supplies is constantly kept on hand by authority of the board of county infirmary directors. These provisions are placed at the disposal of the city director and distributed among those in need of help as they apply for assistance. Director Baumbach stated that during a year and a half that the system has been practiced in Toledo there has been a saving to the city of over $14,000. This is certainly a very big item.

Under that method, the city procures its supplies at wholesale prices and is sure that the quality intended is given and there are no short weights to occasion more frequent relief.

Another objection Director Baumbach has to giving orders is made on the theory of grocers creating paupers. He says that when winter comes and the poor no longer can secure work, the grocer won't trust them. They say: "You go down to the infirmary Director's office. I will see that you get relief." The grocer then goes to the councilman and says: "I want a certain individual placed upon the temporary relief rolls of the poor director. Unless you intercede I will spot you next spring."

Then the councilman approaches the director on the subject. Should the director say that he would like to investigate, he is met with the threat that unless he accedes to the demand his head will drop when the next appointing day comes 'round.

FOUND A LIVE WIRE.

NEWS OF THE LAKES

The Season Opens With Labor Troubles.

Fight Against the Vessel Owners' Association.

A Big Fleet of Boats Carrying Six Million Bushels of Grain Bound Down the Lakes to Buffalo.

Chicago, April 11.—(Special Marine Service)—The real tug of war comes with the strike of the Seamen's union, or, as the officers of the union put it, the strike of the Lake Erie vessels now grain-loaded in Chicago against the going rate of wages established for the season.

This figure is $2 per day. The members of the union say that all of the lumber vessels leaving thus far have paid the wages, but that Cleveland and Buffalo owners whose boats are now ready to go have brought a lot of non-union men here, under the lead of Capt. Rumsey, the shipping master at Cleveland, and will attempt to man the boats with them.

The fleet especially watched by the union committees are those of Corrigan, Hawgood, Bradley, Eddy and Shaw.

At union headquarters one of the members said: "Rumsey is known all over the lakes as 'Bully" Rumsey. He is kept under pay at Cleveland because he is a giant bruiser, and he is continually in trouble without any cause with the union sailors there. He will find things different in Chicago."

Among the representatives of Lake Erie vessel owners a bitter feeling exists against the union. They say the men for their vessels come here to ship at so much per month, and that they will be shipped, regardless of the union.

A Fight on the J. I. Case.

The opening row of the season occurred on the large grain-laden schooner J. I. Case, recently bought by Corrigan, of Cleveland, from Knapp, of Racine.

A "committee" visited the vessel yesterday, and a pitched battle took place between the intruders and the non-union crew.

The fighting on decks and on the adjoining wharves continued half an hour. One of the crew in an attempt to escape, had a terrible fall and broke his leg.

After the battle the members of the "committee" were asked if they were from the Seamen's union. They said "no," but were fighting on general principles.

There were 25 of them, all heavy hitters and they said they would be busy from now until the last of the grain fleet had gone. The Case is down at the piers, but the steamer Aurora, which tows her, is still up the river.

Capt. Shaw, the manager of the Eddy-Shaw fleet, is in Chicago to see that his boats get away safely. He says he will not employ union men under any circumstances, and every time his boats were in port last summer he called on Mayor Washburne for police protection.

The boats under the union's surveillance yesterday were the schooners Lizzie A. Law, Anna M. Ash, Olive Jeannette, Baltic, Frank D. Ewen, Chas. Foster, Rutter, Wayne, Crosthwaite, John B. Merrill, F. L. Danforth and the Shaw boats.

The Chicago schooners, which took union crews last season without question, but are now disposed to take non-union men, and are closely watched, are the Oak Leaf, Granger, City of Cheboygan, Lake Forest, Ellsworth, Jas. G. Blaine, Slawson, Sturges, Ames, Maxwell. All these boats are now ready to sail for Georgian bay with grain.

Outwitted the Committee.

The captain of the barge May Richards stole a march on the union. He shipped a non-union crew Saturday night, and early yesterday morning had his vessel towed out into the lake where she dropped anchor out of reach of the committee. There she was picked up by the steamer Rube Richards last evening and started for Buffalo.

Kidnaped the Men.

The "M. F. R. A.," the Marine Firemen's Benevolent association, is a new organization for Chicago and was formed this spring. It is a branch of the Buffalo order of the same name. The members ask $1.25 a day and board. A committee visited the steamer Elfinmere at the piers on Saturday and kidnaped two non-union firemen who were serving on board. The Elfinmere was all ready to leave for Buffalo, but being short of firemen did not go until yesterday. It is claimed that the non-union firemen were members of the Longshoremen's union, whose members are now also striking.

Grain Trimmers' Rates.

The grain trimmers have fixed their wages at $1 per 1,000 bushels. The charges of the coal and iron ore unloaders have been made the same as last year. The lumber unloaders have made the same scale of charges as last season, except that extra prices will be demanded for work at the Santa Fe docks on both lumber and ties, on account of this dock being both high and awkward. The union took no action toward helping out the longshoremen. The latter were very quiet yesterday, and it was reported that Contractor McRae had granted their demand.

The season has opened with more than the usual quota of labor troubles here, and the outlook is for troublesome times for a month or more.

It is not believed, however, that the union will take part in quarrels to the extent of sympathetic strikes, which would at once stop all business on the river.

Tug Wages.

Wages on tugs in Chicago river have been fixed as follows: Captains, per month, $150; engineers, $95; firemen and linemen, $50; stewards, who board the crews, $140.

Navigation was fairly opened, when big grain laden steamers began to leave for the lower lakes in earnest.

The Silk and City of Paris, which led the fleet, were followed by the Castalia and Elfinmere, Hope, Presley, Germanic, Weed, Pueblo, Rube Richards, and May Richards. The Pope, Brittanic, Oades, Foster, Western Reserve, Servia, Iron City, Iron King, Iron Age, Morley, Ewen, City of Cheyboygan, J. B. Merrill, Oakleaf, and Granger have also cleared. Steamers H. C. Packer, Albany, Hudson, Philip Minch, H. R. James, and Kitty Forbes are at the mouth of the harbor all ready to go. In the grain fleet this spring there are 100 boats whose aggregate cargoes are about 6,000,000 bushels. It is:

For Buffalo: Wheat—City of Paris, Pope, May Richards, Parker, John F. Eddy, C. A. Eddy, Shaw, N. A. Eddy, Foster, City of Cleveland, Lehigh, Philip Minch, Servia, J. W. More, Geo. Presley, Escanaba, Argonaut, Rutter Ashland, Jewett, Western Reserve, Geo. T. Hope, Brittanic, Baltic, Farwell, Iron City, Iron Age, Iron King, Iron State, G. W. Morley, Ewen, J. I. Case, Chas. Foster, Mabel Wilson, Louisiana, John Craig, H. E. Packer, Lizzie A. Law, Susquehanna. Wheat 2,000,000 bushels.

Corn—Sitka, Rube Richards, Elfinmere, City of Rome, Verona, Ashland, David Vance, Saranac, Castalia, Neshoto, Aurora, Wayne, Crosthwaite, Christie, Pratt, Ash, Wilbur. Corn, 1,069,000 bushels.

Oats—Hadley, Fitzgerald, Tuscarora, Caledonia. Oats, 550,000 bushels.

Flaxseed—Ohio, Germania, John B. Merrill, Oades, Walter Vail, Raleigh. Flaxseed, 850,000 bushels.

Rye—A. Stewart, Danforth, Viking. Rye, 158,000 bushels

Sarnia and Georgian Bay: Corn—City of Cheyboygan, Lem Ellsworth, Minnie Slanson, Mary D. Ayer, Cheney Ames, F. B. Maxwell, Lake Forest, Jas. G. Blaine, A. Moshier, Naiad, Ada Medora, George Sturges, Oakleaf, John Spry, J. P. Johnson, Grainger (oats), Elgin (oats), bushels. Corn, 373,000; oats, 66,000.

For Kingston. Corn—Kittie Forbes, Pueblo, Josephine, D. C. Whitney. Wheat—Negaunee, Sandusky. Rye—Rhoda Emily. For Ogdensburg: Corn—Prince, James. For Prescott: Superior, 30,000 bushels.

The Submarine Boat.

Detroit, Mich., April 11.—The nameless submarine boat that has been building here the past winter was yesterday given a thorough trial under water and was proven to be a success in every particular. With a crew of three on board, the boat started from the dock on the River Rouge, just below the city, and at first skimmed along over the surface toward the Detroit river. It was then submerged, going down gradually and under perfect control of the pilot.

Under water the boat was able to attain a speed of over ten miles an hour, to turn around, and rise and sink with the greatest ease. The boat was submerged several times under different circumstances and proved that the peculiarly constructed propellers were well adapted to their purpose.

It was also proven that in sinking or rising the boat maintained a horizontal position, a matter of great importance in a submarine boat. The boat is equipped to run by steam power while on the surface, but underneath the water the motive force comes from a powerful electric storage battery, the cells being charged by the same engine that runs the boat on the surface.

The trial was a perfect success and showed that a submarine boat is not only possible, but practicable.

The advantages of such a craft for torpedo service in harbor defense in times of war will be readily suggested to naval engineers. The present boat was built only as an experiment. It is the shape of a thick cigar, with pointed ends and compressed sides, being 40 feet long, 14 feet deep, and nine feet beam. Its inventor is George C. Baker, of Chicago, who was formerly at the head of the well-known Baker Wire company.

Rates Go Down.

Chicago, April 11.—(Special Marine Service)—Although lake and rail lines will not start boats until Wednesday they are preparing to give railroads leading eastward from Chicago a lively race for freight.

Tariffs issued to-day make reduction of 2 1-2 cents per hundred on flour, bran and oilcake from rates prevailing at close of navigation last fall.

The rest of the tariff remains practically unchanged with lake and rail freight on flour and oil cake, 17 1-2 cents to New York and 22 1-2 cents to Boston and New England, which, compared with all rail rates, is 7 1-2 cents higher to both New York and Boston. Railroads will get very little flour from this time on. The drop was precipitated by collapse in grain carrying charges.

To-day shippers were bidding 2 cents on wheat to Buffalo, while vessel men were holding for 2 1-4 cents.

A large fleet was on market, but very little business had been done at the close of change.

The strike of the longshoremen shows no signs of peace, although serious trouble has so far been averted by the fact that very little was now being done on the docks.

As soon as the fleet reaches here from Buffalo there may b serious times. The union is firm in demanding 25 cents per hour, while McRae, backed by the steamer lines, will give but 20.

At the Anchor line dock this morning an Italian laborer was thrown into the river, and was rescued with difficulty.

Strikers clealm that Italians have been imported direct by contract for McRae, and complaint will be made to the United States authorities for a violation of the contract labor law.

Arrived from Toledo.

Buffalo, April 11.—(Special Morning Service)—The steamers America and Brazil, the first arrivals of the season, came in this morning from Toledo. They had no trouble with ice.

The first steame rto sail for Chicago was the Majestic. The Livingstone has gone to Toledo. Very little coal is offering at 40 cents to Chicago and Milwaukee, and 30 cents to Duluth.

Through the Straits.

Mackinaw City, April 11.—(Special Marine Service)—Down: Castalia, 9 a. m.; Elfinmere, 9:30; wind west, fresh, clear and cold.

Cheboygan—Straits now perfectly free of ice; cleared by heavy western winds.

At the Soo.

Sault Ste Marie, April 11.—(Special)—Parties arriving here from Whitefish Point report lake all clear from there down. The warm weather with rain for the past ten days, has had a most telling effect on the ice in Mad Lake, making it impossible for teams to cross.

There is no question but navigation will be open by April 15. In fact, Mud Lake can be forced at any time. Captain Lynch has the locks in readiness for the first boat. The water has lowered from 14 feet 3 inches to 13 feet 10 inches during the past ten days. Vessels will not be safe to load over the latter draft.

The Water at Port Huron.

Port Huron, April 11.—The water on the middle ground registers 11 feet 10 inches. There is no ice in sight, but it would only take a short time for a northwind to drive it back to the river. The water in many places around Corsica shoals registers from 15 feet 5 inches to 15 feet 10 inches. The water on Lynn's ranges registers 16 feet 8 inches all the way out. Masters of large vessels are advised to check their steamers in coming in and going out, and also to keep close over to the Canadian side in passing the middle ground.

Notes.

Ice in Mud lake is breaking up.

Cleveland expects a heavy movement in coal.

The big Sitka has passed down through the straits.

The water is rising. To-day it measures 14 feet in the channel.

The Nyanza is loading grain at No. 5 and the Wocoken at No. 5 for Erie.

The tugs are nearly all out in the bay to-day helping out grounded vessels.

The Lindsay, aground in the river, got off Saturday and went outside to-day.

The steamer Phil Armour is loading coal at the O. C. dock for Milwaukee.

The tugs Butler and Schenck were still pulling at Fedora at noon, but she won't budge.

The schooner Wm. Shupe came in yesterday and is loading coal at the Columbus dock.

The tug Schenck will go on the dry dock the latter part of the week to get a new wheel.

"The Wocoken is loading coal at the Wabash elevator," is the way a local contemporary puts it.

The schooner San Diego, aground in the bay, got off yesterday. At noon the Massasoit was still hard on.

The City of Paris was the first boat through the straits. She passed down at 3 o'clock yesterday afternoon.

The steamer Wellington R. Burt came down from winter quarters yesterday and repairs will commence on her at once.

Duluth elevators are crowded and charters on wheat range from 3 3-4 to 4 cents to Buffalo; 5 1-2 to 6 cents to Kingston.

The Maumee River and Steamboat company will meet Wednesday evening to consider the running of the Pastime this season.

Coal Traffic Agent W. H. Vance, of the Wheeling & Lake Erie, has been in the west for several days. He will return this afternoon.

The low water in the river has caused considerable delay. Every vessel that has tried to go out went aground during the past two days.

The following boats are loading coal at the Columbus dock: Iron Chief, Iron Duke, Iron Cliff, Iron state, E. M. Peck and J. C. Lockwood for Lake Superior ports.

A TRAGEDY OF THE HIGHWAY.

"I'll trouble you, my friend, to turn out all
The stuff you've got about you! Lively, now!"
Thus spake the footpad, and straight at the head
Of the lone traveler a deadly gun
He steadily pointed. "Come, shell out your wad!"
"My good sir," argumentatively quoth
The luckless traveler, "I do protest——"
"Protests don't go!" the robber stern replied.
"I'll blow your head off if you don't come down!"
"But sir——" The fierce highwayman threw his arm
About his victim's neck, shut off debate,
Applied the gag rule, the amendement failed
To carry, and the miserable wretch,
In the minority too hopelessly
To kick with any prospect of success,
Was then and there cleaned out, according to
The old, time-honored, customary rules.
—Chicago Tribune.

A gentleman traveling in Japan broke the mainspring of his watch, which he took to a native village jeweler. The watch was returned, apparently in as good going order as ever, and it kept good time until the rainy season set in, when it stopped. Being in the city of Tokio at that time, the traveler took the watch to an English workman, who was astonished to find that the cunning Jap had put in a spring made out of bamboo, which, so long as it kept dry, remained elastic, but during wet weather had gathered dampness and lost its power.

UNCERTAIN RESTING PLACE

The salesman with red whiskers and an eight-day smile, who was sitting near the door in an uptown furniture store last Wednesday afternoon, received a disagreeable surprise.

He was occupying an old oak hall chair marked down to $4, and idly wondering whether business for the day wasn't about over, when the door was opened and a small man in arctics hurried in, located the salesman in the marked-down chair, and said briefly:

"Sold me a folding bed on Monday, didn't you?"

"Quite likely I did, sir."

"Regular A 1 modern improved bed, wasn't it?"

"Undoubtedly a first-class article."

"Believe you said no flat was complete without one—bed, washstand, bureau and writing desk combined, and looked like a planner besides, didn't you?"

"Think I did. Anything wrong?" inquired the salesman uneasily.

"You said old-fashioned double beds had gone out of style—too big for New York flats—some of them bigger than the whole flat, didn't you?"

"That is surely quite true," said the salesman soothingly.

"You said," continued the man in the arctics, ignoring the suggestion, "that if a man bought one of them folding beds he didn't need another stick of furniture in the room but a chair and a spittoon. Didn't yer?"

"I might have suggested the value of the article."

"Hey?"

"I say I might have said something of the sort."

"Well, you did. I was fool enough to buy one of them beds. It's up in Harlem now. Me and my wife has lived on that combination business one night, and now it's the bed or we gets out."

"What's the trouble?"

"Well, you see, the thing you call a bed only got there yesterday afternoon, and my wife and I spent the evening seeing how it worked. She was kinder shy of the thing till the young lady from the next flat thought it was a planner, and was took in tryin' to play 'Hogan's Alley' on the false keys. That tickled my wife, and she said there was a good deal to the critter, after all. So she put four of her dresses into the drawers in the bureau half, and I fixed up the wash pitcher and basin on the washstand section, and later in the evening I filled up the ink well and wrote a letter on the desk to Deacon Ezra Hobson, up in West Schodack Landing, and told him what a treasure we had. About 9 o'clock my wife made up the bed. We don't like to sleep facin' east, so she made up with pillows at the footboard and we turned in. I reckon I'd been asleep about an hour when I was woke up by my wife nudgin'.

"'Willyum,' says she in a whisper. 'I've had the realest dream I ever had; I dreamt I was out swimmin' in a round pond, and on the shore was two pigs, a snortin' and gurglin' so loud they woke me up. I was a splashin—

"'Margrit, do you smell something queer?' says I, interruptin'.

"'No,' says she, 'mebbe it's the new bed.'

"'Tain't bed,' says I, 'it's a sour, vinegary smell, and besides,' says I, sort of scared, 'there's something wet on my ear.'

"With that I jumped out of bed and lit up. Well, sir, my wife give a screech, jumped clear across the room and ran out in the hall.

"'Lord sakes, Willyum—if you are him,' says she through the crack of the door, 'are you sick, or what is it?'

"'What ails you, carryin' on like that,' says I, gettin' kinder mad.

"'Ails me,' she says, look at yourself, you nightmare.'

"Well, sir, you should have seed me. I reckon the whole pint of ink I had put into the ink-well in the desk section of that bed, had got on me. My head was all ink except my nose and my left ear. There was ink on my hair, and ink on my night clothes, till I looked like a dirty pen-wiper on legs. It took fifteen minutes to get my wife back into the room, and then we found that wasn't all. One of us must have turned over heavy in our sleep, and squashed the pitcher in the washstand section, and it had filled the bureau half, till I reckon there was a gallon of water in the second drawer, on my wife's best dress."

"You seem to have had a nice, quiet time," returned the salesman, foolishly attempting the genially humorous.

"Nice quiet time, hey," exclaimed the small man excitedly, "mebbe going to bed with an ink bottle and standin' round in the sun next day with salts of lemon on your head to bleach out the smootches is your idea of a nice time. 'Tain't mine. I haven't come in here to kick, but I don't want no foolishness about this. Me and my wife has agreed that if you'll exchange that folding business for a good, plain bed, we'll call it square; will yer?"

"Very likely we can sir."

"'Tain't no 'likely' about it, man; you've got to," shouted the little man, getting painfully excited. "I won't spend another night strewin' my shape around on fake planners and washstands. We want the genuine article now, flat or no flat. I've been perlite so far, but this ain't my day for pokin' fun. Mebbe there's people in this town likes to sleep on a monkey business bed, but I want a bed, a plain bed, with four legs and slats, even if I have to dress on the mantlepiece and eat on the fire escape. Catch?"—New Orleans Times-Democrat.

GOETHE'S VISIT TO CARLSBAD.

His Life Greatly Prolonged.

There is no doubt that the life of the great poet was greatly prolonged by drinking the waters of the Sprudel Spring. In our day we have the Sprudel Spring brought to us in the form of Salt, which is obtained by evapoartion from the waters of Carlsbad.

The Natural CARLSBAD SPRUDEL SALT (powder form) is in no sense a mere purgative, but is an alterative and eliminative remedy which dissolves tenacious bile, allays irritation and removes obstructions by aiding nature. It acts soothingly and without pain, and is therefore, far superior than pills, purgatives and other remedies. The genuine has the signature of EISNER & MENDELSON CO., Sole Agents, New York, on every bottle.

Really Remington will add with his pen and pencil that spirit and grace to the European soldier that he has bestowed upon the native trooper—that is if the foreign product will admit of it.

THE PLEA OF INSANITY

Cannot be urged in extenuation of the conduct of hosts of people who constantly inflict injury upon themselves, and lay the foundation for serious and disastrous bodily trouble by the use, in season and out of season, upon slight necessity and without discrimination, drastic vegetable cathartics and poisonous mineral cholagogues—notably the various forms of mercury—to relieve simply constipation, a complaint remediable at any stage by the persistent use of Hostetter's Stomach Bitters. This famous remedy never gripes, evacuates too copiously or weakens the bowels. If there is any other tonic aperient in or out of the pharmacopœdia of which this can truthfully be said, we are unaware of it. Abandon the fatuous habit of dosing and use this benign regulator, which also sets right weakened stomachs and disordered livers. Rheumatism, neuralgia, sleeplessness, loss of appetite, malaria, debility and kidney complaints are troubles all conquerable by the Bitters.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED,

As a general family remedy for dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

AT THE TOLEDO THEATERS

Miss Carrie Oesterman Goes with Carroll Johnson.

Mr. Barnes, of New York, at Wheeler's This Evening—One of the Bravest—Sol Smith Russell Well Received.

Miss Carrie Oesterman, of this city, who has been playing in Hands Across the Sea, was home yesterday. She has left the company to go with Carroll Johnson in the Gossoon. She will play Anabell, the part opposite to Mr. Johnson. Miss Oesterman will join the company at Kansas City to-morrow and she will make a tour of the Pacific coast. Her youngest sister, Miss Lillian, takes her part in Hands Across the Sea. She opened in the piece at Bellows Falls, Vermont, Wednesday last and made a hit with the management and the audience, although it was her first appearance on any stage. She will finish the season with them, about two months, and return home for the summer. Miss Anna Belmont, who is with Sol Smith Russell, will also be home in seven weeks.

Saturday Evening's Performance.

Sol Smith Russell played at Wheeler's Saturday evening, in A Poor Relation, to one of the largest houses of the season. Very few in the audience knew that it was the first time Mr. Russell's present company had appeared in the piece, but it was, and they played it exceedingly well. Russell himself was inimitable. There is no actor on the American stage to-day who can approach him in the peculiar characters he portrays. Miss Anna Belmont appears to good advantage in the piece.

This Evening at Wheeler's.

Mr. Barnes of New York will be given at Wheeler's this and to-morrow evenings. Its five acts contain the elements of comedy, tragedy and farce so ingeniously woven together as to appeal to and gratify every mind. Mr. F. W. Sanger has gathered together this season nearly all the members of his company who were seen in its production last season. A few changes in the leading people have been made, and it is claimed it is considerably for the better. Miss May Wheeler, who assumes the part of Marina Paoli, is an actress well known in the profession and ranks as one of great ability. Her acting is said to be marked by its wonderful fidelity to nature. The hero, Mr. Barnes, is a presiding genius. The truly American habit of being always on deck, as his compatriots say, gets him inextricably mixed up in what proves to be a whole series of the most unlooked-for events. Mr. Hugo Toland has been selected by Mr. Sanger from among a large number of leading men of the day to portray the character of Mr. Barnes of New York, and he has received thus far the highest praise from the press throughout the country as well as from the public at large. Mr. Toland is a native of San Francisco and has received a comprehensive theatrical training. Mr. Sheridan Block as Count Musso Danella is an actor well known to a large circle of acquaintances in many of the western cities. He was for a number of years and up to within four years ago member of the board of trade of Chicago. Business reverses moved him to adopt the stage as a profession. The theatrical fraternity in general have looked upon him as a genius for the rapid strides he has made within the last few years. The part calls for a great deal of that kind of acting which one is accustomed to look for in the heavy villain. The balance of the cast consists of such well-known people as the Misses Emma Field, Lola Bertelle, Rose Snyder, Adelaide Merton, Mary Farrish, and Messrs. Charles Lamb, E. W. Lamb, H. C. Brinker, Percy Brooke, M. L. Alsop, T. B. Presley, Fred McClellen, and other well-known artists.

One of the Bravest.

This great fire play will hold the boards at the People's theater this week. Matinees will be given on Tuesday, Thursday and Saturday. Since McCarthy has appeared here, he has added several new features to this play. The company is the best he has ever had, and includes Wm. Cronin. The special scenes in the piece are the New York dock scene, the great fire scene and the Chinese opium joint. It takes a special car to transport this scenery. Besides, a real fire engine, hose carriage and six white trained Arabian horses are carried by this company. The horses run at the sound of the alarm and dash on the stage, drawing the engine and hose carriage, making the scene one of the most realistic ever witnessed. Two of the youngest and cleverest children ever seen on the American stage are with the company and will be seen in new songs and dances during the performance. This is the last season of One of the Bravest, as Mr. McCarthy is going to produce a new play either in New York or Boston in August, in which will be used 20 horses and some sixty performers, most of them trained firemen.

WORTH KNOWING.

That Allcock's Porous Plasters are the highest result of medical science and skill, and in ingredients and method have never been equalled.

That they are the original and genuine porous plasters, upon whose reputation imitators trade.

That Allcock's Porous Plasters never fail to perform their remedial work quickly and effectually.

That this fact is attested by thousands of voluntary and unimpeachable testimonials from grateful patients.

That for rheumatism, weak back, sciatica, lung trouble, kidney disease, dyspepsia, malaria, and all local pains, they are invaluable.

That when you buy Allcock's Porous Plasters you absolutely obtain the best plasters made.

MAY HAVE BEEN LOST.

Fears for the Safety of Vessels on the Ocean.

Philadelphia, April 11.—Shipping circles are at present greatly alarmed over the probable loss of three vessels, the crews numbering 48 persons, and property to the valuation of about $248,000.

The vessels are the German steamship Alarich from Huelva, February 22, for Philadelphia or New York; the Italian bark Immacaleta, which sailed from Cienfuegos January 28 for this port and the schooner Taylor and Mathias from Norfolk, March 2, for New York.

The British steamship Walby, from Bermuda, March 30, for this port, is slightly over due and some anxiety is felt concerning her.

HIS ENEMIES ARE ACTIVE

Anti-Administration People at Work.

They Will Do All in Their Power to Defeat His Nomination at Minneapolis.

Washington, April 11.—While the president is shooting snipe in the marshes of Virginia the bolters of his party are busily engaged trying to fix up schemes to secure his defeat for renomination at Minneapolis.

The bosses are not using a brass band to advertise their war on Harrison, but they are working steadily, consistently and earnestly just the same.

Quay, Cameron, Wolcott, Fessenden, Platt and others are in constant communication formulating plans to carry out their purpose. There is no doubt that Blaine is the choice of the bosses. Not that the bosses love Blaine overmuch, but that he is the strongest man to beat Harrison with.

Blaine, it is again asserted, is willing, provided he will not be called upon to say or do anything himself. Quay insists that Blaine's health is good, better than it has been for three years, and Whitelaw Reid, who spent much time with Blaine in the early part of the week, corroborates him. On the other hand, the Harrison people call those who are trying to reinvigorate the Blaine boom grave-robbers.

They insist that Mr. Blaine is on the verge of the grave and that it would be nothing short of murder to force a nomination upon him, as the excitement and worry of a campaign would be sure death to him.

The anti-administration folks, however, insist that Blaine is feeling hearty, and that since the fine weather came and he has been able to take exercise he feels like a new man. They also declare that Blaine will not be called upon to say a word or travel a mile during the campaign if he is the republican candidate.

Senator Washburn of Minnesota is one of the strong Blaine advocates, and is in thorough accord with Quay, Platt & Co. It is said that his part of the business is to see that the galleries at Minneapolis are well thronged with Blaine boomers, and that only Blaine shouts can be heard in the convention. Quay is contemplating a public declaration regarding his gratitude, and if he concludes to do it he will issue a manifesto in the shape of an interview in a short time.

Quay feels confident that Harrison can be beaten, and that it requires only a nod from Mr. Blaine to signify his acceptance to secure his nomination by practical unanimity. After Blaine the hope of the anti-Harrison people is centered in Bob Lincoln. Alger stands in with the combine for anybody to beat Harrison, with the exception of John Sherman. Alger is for himself first, of course, but if he cannot make it he will stand shoulder to shoulder with Quay, Platt, Dudley and the other bosses to do up Benjamin. There will be lively times at Minneapolis.

Pardridge Refused to Run Against the Crowd

And the Chicago Market Was Tame.

Crop Report and Interesting Comment on the Same—Prices and Values all Over the World.

Chicago, April 11.—The operators on the board of trade that had prognosticated a sharp rise of prices and the consequent discomfiture of Plunger Pardridge and minor bears found the tables turned before they had been long in the pit.

The news from London of a big failure was the first depressing incident, and when the cables showed that the market abroad was dull and shaky the prophets gave up hopes of a big advance.

May wheat at 84c, an advance of 1c on the closing Saturday, went up to 85 7-8c, but from this point it was gradually hammered down to 82 5-8c.

Pardridge was a big buyer and seller by turns and on the whole added to his pile by the morning's operations.

The market was in an excited condition and the pit during the break presented the usual resemblance to Bedlam.

Wild Excitement.

There were wild times on the board of trade in the last moments of to-day's trading. After fluctuating wildly there was a break of nearly 5 cents in May, or to 80 5-8c.

Pardridge pushed the crowd with might and main and came out of the session half a million dollars ahead.

The story went around that he had lost that much on his early purchases, but this he denied. His sales to-day were much heavier than his purchases. He expects to scalp the crowd again to-morrow.

The Close at Chicago.

Close: Wheat—May, 80 1-2; July, 81. Corn—May, 40 1-2; July, 38 1-2. Oats—May, 29 1-4@29 3-8; July, 27 3-4. Pork—May, 10 12 1-2; July, 10 25. Lard—May, 6 17 1-2@6 20; July, 6 30. Ribs—May, 5 60; July, 5 70@5 72 1-2.

On the Toledo Exchange.

The receipts of wheat to-day at Minneapolis and Duluth were 501,848 bu and at five other western points 108,211 bu.

The export clearances yesterday at four Atlantic ports were wheat 90,709 bu and flour to an aggregate of 250,000 bu. Export of corn 262,456 bu and of oats 11,377 bu.

London markets as reported herein opened higher for wheat and steady for corn.

Liverpool dull and prices lower on wheat. Corn dull.

Comments.

The Chicago Herald says the April condition of wheat in 1881, as reported by the government was 88, and at harvest 74. In 1883 the condition was 80, and at harvest 78. In 1885 condition, 76.3, and at harvest 66. In 1887, condition 88.1, and at harvest 84. In 1888, condition 82, and at harvest 77.4. In 1890, codnition 81, and at harvest 73.5. On these events the Herald weaves a theory that on a low condition in April the crop will loose by harvest.

It is unsafe to generalize after that fashion, because the weather conditions henceforth may, this year, redeem much of the threatened deficiency.

The report is doubtless a disappointment to many, but it is not to us. Since last November we have stated the winter wheat situation continuously fairly, as weak and unpromising, and in opposition to Cincinnati and other authorities.

Some of these writers have constantly averred that the Ohio crop promised an average. Neither the Ohio or United States bureau sustain them.

But a point of great import to the report is that six surplus producing western states produced last year about 40 per cent. of the entire yield, and on the basis of two-thirds winter and one-third spring these states produced about one-half of the aggregate. The condition on these states is placed by the government about 77. That alone means a reduced aggregate of 100,000 bu.

But be of good cheer. There is time enough yet to improve the condition of the crop before we cut it. The Pacific states are now very promising, but commerce and general traffic inspire the wish for a good crop on our slope as well.

Sales on call were No. 2 red soft for May 94 1-4c; July, 87 7-8c.

General Review.

There is no doubt of the fact that the government report was considered by the wheat trade as a bullish document, and that on its merits the markets would have been maintained and ultimately advanced. But there has been the usual manipulation. First, the report of Liverpool market was ragged, and as it was reported as closing Saturday 1@1 1-2d higher, and as London was higher to-day, it looks like management at Liverpool to send out such a report. Under it our markets on this side opened lower, but soon regained the loss, and May wheat at Chicago advanced to 85 1-4c—2 1-4c above Saturday's closing. That price seemed to be a signal for selling, and the prices soon began to break under it, and finally broke in pieces. The May future at Chicago declined to and closed at 80 1-2c, a break from Saturday of 2 1-2c. Of course such a decline means a great pressure to sell. It has been a wild and dangerous market.

Failures at Liverpool may have depressed that market, and under these daily fluctuations it is not too much to expect them elsewhere.

Corn in New York closes lower, while Chicago market has been fairly maintained.

London market for May wheat is quoted as closing much higher. Liverpool is quoted at 1-2d lower, and French markets steady.

In New York May wheat closed 3 5-8c and July 3 1-8c lower. May corn closed 1 1-8c and July 1-2c and May oats 1-2c lower.

In Chicago May wheat closed 2 1-2c and July 2 1-4c lower. May corn steady; July 1-8c up. May oats steady.

In Toledo—There has been a good deal of trading in wheat futures to-day, and a day of some excitement and large fluctuations in prices. Opening prices showed a slight advance, but the firmness was of short duration, and when the market began to weaken it continued to the end, without much upward variation at any time. On the call May sold at 94 1-4c and July at 87 7-8c. After the call May sold at 94 1-4c and declined to 90 1-4c, a loss of 2 3-4c. July sold at 88c and closed at 85c, a loss of 1 3-4c. August sold at 86c and closed at 83 3-4c, a loss of 2c.

Cash wheat was not in demand. A few car lots of No. 2 soft were sold at from 94 to 90 3-4, a loss of 2 3-4. No. 4 soft at 90.

Corn—No. 2 at 4 1-2, No. 3 at 4.

Cloverseed—Very little done to-day. Prices about steady.

The Close in New York.

New York, April 11.—Flour strong; city mill extra, $4.75@4.85 for West Indies; Minnesota extra, $2.90@5.25; fine, $2.00@3.00; superfine, $2.45@3.15. Wheat opened weak at 1 1-4c decline, advanced 1 3-8c and then reacted 3-4c.

At noon the market was weak: No. 2 red winter, cash, $1.02 3-4; April, 95 5-8c; May, 94 5-8c; June and July, 93 3-8c.

Corn opened weak and 3-4c lower, subsequently recovered the decline, and at noon was firm; No. 2 mixed, cash, 55c; May, 47 3-4c; June, 45 1-2c; July, 45 3-4c.

Oats dull but steady; No. 2 mixed, cash 36c; May, 35 1-4c. Rye steady; ungraded western, 90c.

Barley nominal; No. 2 Milwaukee, 68@69c. Sugar, refined quiet, unchanged. Coffee dull; fair rio cargoes, 16 1-4c. Pork dull; new mess, $11.00@11.50. Lard steady; May, $6.52; July, $6.64. Butter weak; western extra, 22@23c. Cheese barely steady; state factory fancy, 11 3-4@12c. Eggs dull and easier; state choice, 14@14 1-2c. Turpentine dull at 36 1-2@36 3-4c. Rosin steady; strained to good, $1.40@1.45. Tallow quiet; prime city, 4 3-4c. Petroleum dull. Freights quiet; unchanged. Molasses dull; New Orleans, 30@36c.

New York, April 11.—Money 1 1-2 per cent. Exchange steady; posted rates, 4 87 1-2@4 88 1-2; actual rates 4 86 1-4 for 60 days and 4 87 1-2@4 87 3-4 for demand.

Governments steady; currency 6's, 1 09 bid; 4's coupon, 1 16 bid; extended 2's registered, 1 00 bid.

The stock market was extremely dull this morning. During the first hour the market was firm, except for Atchison, New England and the coalers. Union Pacific was strong and advanced 1 1-4, Erie 1 and W. U. 1 per cent. The rest of the stocks were 1-8@7-8 per cent. higher at 11 a. m. than they closed Saturday. After 11 o'clock a pressure to sell New England developed which sent its price down from 40 3-8 to 38 1-2. The general market weakened in sympathy and lost some of the early advance. At this writing the market is dull with prices only slightly changed from Saturday's closing.

Crop Reports.

Notwithstanding the many setbacks and much talk to the contrary, the outlook for a large crop in Indiana is good. The dry weather last fall and the bad condition of the ground for plowing delayed the wheat, and the recent severe weather may injure the fruit, but under the circumstances an average crop is expected.

Late reports from all parts of the state, and especially from the White River valley, state that wheat is in much better condition than was expected some weeks ago, and many farmers report that their apple trees have all the yield they should bear. Peaches, plums, cherries and raspberries made a good showing so far, but these are uncertain, as the frost, Hessian fly and chinch bug are yet to come. Last year's yield was an exceptionally large one, and farmers say that if they get a crop two-thirds its size they will be well satisfied.

The April report of the statistician of the department of agriculture makes the average condition of winter wheat on the first of April 81.2, and that of rye 87. The average of the principal winter wheat states are: Ohio 71, Michigan 83, Indiana 78, Illinois 82, Missouri 77 and Kansas 77. The average of these six is 77, against 97.3 in April of 1891. On the Pacific coast the condition is higher. The seeding was generally late, in the west especially, and in the southwest later than in the states of the Atlantic coast.

The unfavorable seeding conditions were drouth, difficult plowing, lumpy soil, slow germination and an imperfect stand; and they were naturally followed by late and feeble growth.

The plant was therefore generally small when the winter set in and apparently of weak vitality, condition in December averaging 85.3. The present return is a reduction of 4.1 points.

Winter protection by snow was quite general in New York, from January till late in March. In Pennsylvania the covering was less continuous or general, but was enjoyed when most needed.

In Michigan there was a fair degree of protection, especially in the severest weather. In Ohio, Indiana and Illinois the slow covering was not continuous or heavy, in some places very light and partial, in others better than for years. In Missouri and Kansas there was still less snow, but there was some protection at the time of the March freezes.

It is quite uniformly reported that the winter was not very severe, and was in many sections mild. Winter killing was exceptional, or limited to flat or wet areas. Some correspondents note the lumpy condition of the soil as modifying the injury by freezing. Many correspondents report the crop improving in appearance at the time of the report, and indicate a probability of further improvement with favorable April weather. The fact that low condition is less the result of winter killing than of late germination and slow autumn development renders material recuperation possible under favoring meteorological conditions.

The April bulletin will contain a report of the condition of farm animals at the close of winter, and estimates of losses during the past year.

London Wool Market.

London, April 11.—At the wool sales to-day 13,368 bales, comprising a good quality, were offered. The competition was brisk. At 11:40 o'clock to-night an excursion will start for Harriman, Tenn., via the C., H. & D., under the charge of Excursion Agent G. J. Clark, of this city. About sixty excursionists will go from this vicinity.

In the Bee's heading on Saturday over the gas trustees' challenge appears the words "An Impudent Document." It was written "An Important Document." The blundering printer has ceased to exist in Toledo.

The criminal cases will be heard before Judge Pugsley, of the common pleas court, in the following order: Royal Jenkins, John Delaney, Charles Miller, Harry Hoffer, two cases, Walter Williams, Willis Palmer, S. L. Lewis.

An interesting session of the Day Nursery circle of King's Daughters was held Saturday afternoon. This latest of beneficient organizations is in prosperous condition and doing a world of good, "helping those who help themselves."

In common pleas court to-day, Phoebe J. Miller sued the city to recover $5,000 damages for personal injuries. The plaintiff states that he fell on Shaw avenue and sustained severe and permanent injury on account of the defective sidewalk.

The statement made in Saturday's Bee that a stranger exchanged an inferior stone for a better one while looking at diamond rings in Robert Nelson & Co.'s jewelry store, was a mistake. The swindle occurred at another store on Summit street.

Mr. Fred P. Morris, of the First Ward, is the latest gentleman named in connection with the City Engineer's billet. Mr. Morris is now conected with the Pennsylvania road at Toledo in the engineer's department. Besides being fully qualified, Fred is a Democrat of the fullest regulation.

At 1:30 this morning fire was discovered in the Turner hall on St. Clair street. The department was promptly on hand, extinguished the flames and prevented their spreading. The fire originated in the second floor beneath the stage from a defective flue. Loss estimated at $1,500, covered by insurance.

The greatest invention of the age is N. K. Brown's Iron and Quinine Bitters.

LAW OFFICES MOVED.

Pratt & Wilson have moved their law offices from Gardner Place to Nos. 44 and 45, Produce Exchange.

SHERMAN STILL ON TOP

Republican County Central Committee Meets.

The Organ on the Corner Gets a Handsome Dressing Down—County Convention Called for Saturday, April 23.

The Sherman contigent is still on top.

The republican county central committee met at noon to-day, and the Sherman men had it their own way.

The committee decided to hold the county convention for the selection of delegates to the state convention on Saturday, April 23. The delegates will be elected on a basis of 1 to each 40 votes cast for McKinley.

From one on the inside the Bee learns that the Blade got dressed down handsofely at the meeting to-day. Not only was its suggestion relative toholding the caucuses under the Baber law ignored, but the very opposite course was selected, and the delegates to the county convention—about 240 in number—will be elected at massed caucuses.

The Blade has also been endeavoring to take the appointment of the chairman of the convention away from Col. Joe Bonner, the chairman of the committee, and to have the committee name him, but this the committe with one exception, refused to do, and Chairman Bonner will name his man.

The fight will be on the selection of delegates, who will choose two delegates to Minneapolis and two alternates. The Sherman me have theirs already booked and will undoubtedly put the deal through.

TWO LOCAL SCRAPPERS,

Ed Kelley and John Mullen, Are Arrested.

They Participated in a Fight With Gloves Sunday Night—The Police Are After the Pugilists.

The sickly light of a couple of kerosene lamps shed a glimmer over a shivering group of dead game sports in a hall not four blocks and a half from the police station at a late hour last night. They had gathered to witness a long talked of tight between two local middleweights, Ed Kelley, known as "King" Kelley, aged 19 years, and John M. Miller, aged 22 years.

They fought with four-ounce gloves. It was short and sweet. Mullen went down in the first round from a terrific blow on the face and didn't get up again. King was declared winner.

This morning both men were arrested by Detectives Carew and Nichter and taken to the station for safe keeping. It is not known if anything can be done with them, but the police are bound to stop the scrapping matches that have been taking place in the city frequently of late, and this arrest is a start in that direction.

THIS WEEK WE OFFER

$10.00 SUITS AT $7.50!

An Eastern manufacturer, having a large number of Men's Suits which he wished to close out, and knowing we could use quantities, forwarded samples to our Detroit house and asked for an offer. We got them at our own price, which was a low one. Our proportion, several hundred suits, in which there is a large variety of styles, came in late last week, and THIS WEEK WE OFFER AT $7.50 MEN'S SUITS WORTH $10. There's not a suit worth less, the patterns are A1 making and trimming, first-class, and there's at least a saving of $2.50 to every buyer.

BOYS' SPRING SUITS! ❋ BOYS' HATS! ❋ BOYS' SHOES!
